Wohnbedarf
Import / Export - Handels GmbH
Werner von Siemens-Straße 35
49124 Georgsmarienhütte

Entspricht den Sicherheitsbestimmungen: **DIN EN 1129-1 : 1995**

Wichtige Hinweise:

- Warnung! **Kinder sollten das Bett nicht ohne Aufsicht benutzen!**

- Das Aufbauen und Verankern an der Wand sowie nachträgliche Einstellungen dieses Vertikal Klappbettes dürfen nur von hierfür geschulten Fachpersonal ausgeführt werden.
- Dieses Vertikal Klappbett muss auf einem festen und tragfähigen Boden stehen.
- Unebenheiten müssen mit den beiliegenden Ausgleichskeilen ausgeglichen werden, da dieses Bett waagerecht und Lotrecht stehen muss.
- Dieses Vertikal Klappbett ist vor dem ersten Öffnen unbedingt mittels der beiliegenden Wandwinkel mit der Wand zu verankern. Je Wandwinkel sind 4 Schrauben zu verwenden. Die Tragfähigkeit der Wand muss hierbei gewährleistet sein.
- Bitte verwenden Sie nur Befestigungsmittel aus dem Fachhandel, die für Ihre Wand auch ausgelegt sind.

Die Haltekraft muss mindestens 400 N (40Kg) je Wandwinkel.

- Warnung vor fehlerhafter Montage.
- Bei unzureichender Befestigung besteht Unfallgefahr!
- Zum Öffnen und Schließen Ihres Bettes ist der Griff zu benutzen. Es besteht "Quetschgefahr!!!"
- Achtung! Klemm- und Quetschstellen an den Schließkanten!
- Sicherheitshinweis! Bett nicht ohne Matratze benutzen, da Bett Selbsttätig einklappen könnte.

Die verbauten Beschläge sind wartungsfrei und für ein Matratzengewicht von 13 - 21 Kg geeignet.
Maximale Matratzenhöhe 185mm.

Important notes:

- Warning! **Children should not use the bed without supervision!**

- Assembly and anchoring to the wall as well as subsequent adjustments to this vertical folding bed may only be carried out by trained specialist personnel.
- This vertical folding bed must stand on a firm and load-bearing floor.
- Unevenness must be levelled out with the enclosed compensation wedges, as this bed must be horizontal and perpendicular.
- This vertical folding bed must be anchored to the wall using the enclosed wall brackets before it is opened for the first time. 4 screws must be used for each wall angle. The load-bearing capacity of the wall must be guaranteed.
- Please only use fasteners from specialist dealers that are also designed for your wall.

The holding force must be at least 400 N (40 kg) per wall angle.

- Warning of incorrect installation.
- If the fastening is inadequate, there is a risk of accident!
- Use the handle to open and close your bed. There is a danger of crushing!
- Attention! Clamping and squeezing points at the closing edges!
- Safety advice! Do not use the bed without a mattress, as the bed could collapse automatically.

The built-in fittings are maintenance-free and suitable for a mattress weight of 13 - 21 kg.
Maximum mattress height 185mm.

Remarques importantes :

- **Attention !** **Les enfants ne doivent pas utiliser le lit sans surveillance !**

- Le montage et l'ancrage au mur ainsi que les réglages ultérieurs de ce lit pliant vertical ne doivent être effectués que par du personnel qualifié et spécialisé.
- Ce lit pliant vertical doit reposer sur un sol ferme et porteur.
- Les inégalités doivent être nivelées à l'aide des cales de compensation jointes, car ce lit doit être horizontal et perpendiculaire.
- Ce lit pliant vertical doit être ancré au mur à l'aide des supports muraux fournis avant d'être ouvert pour la première fois. 4 vis doivent être utilisées pour chaque angle de mur. La capacité portante du mur doit être garantie.
- N'utilisez que des fixations provenant de revendeurs spécialisés qui sont également conçues pour votre mur.

La force de maintien doit être d'au moins 400 N (40 kg) par angle de mur.

- Avertissement en cas d'installation incorrecte.
- Si la fixation est inadéquate, il y a un risque d'accident !
- Utilisez la poignée pour ouvrir et fermer votre lit. Risque d'écrasement !
- Attention ! Points de serrage et d'écrasement sur les bords de fermeture !
- Consignes de sécurité ! N'utilisez pas le lit sans matelas, car le lit pourrait s'affaisser automatiquement.

Les ferrures encastrées ne nécessitent aucun entretien et conviennent pour un poids de matelas de 13 à 21 kg.
Hauteur maximale du matelas 185mm.

Belangrijke opmerkingen:

- **Waarschuwing!** **Kinderen mogen het bed niet zonder toezicht gebruiken!**

- De montage en verankering aan de wand en de latere aanpassingen van dit verticale vouwbed mogen alleen door geschoold vakpersoneel worden uitgevoerd.
- Dit verticale vouwbed moet op een stevige en dragende vloer staan.
- De oneffenheden moeten worden geëgaliseerd met de meegeleverde compensatiewiggen, aangezien dit bed horizontaal en loodrecht op elkaar moet staan.
- Dit verticale vouwbed moet met behulp van de meegeleverde wandbeugels aan de wand worden verankerd voordat het voor het eerst wordt geopend. Voor elke wandhoek moeten 4 schroeven worden gebruikt. Het draagvermogen van de wand moet gegarandeerd zijn.
- Gebruik uitsluitend bevestigingsmiddelen van gespecialiseerde dealers die ook voor uw wand zijn ontworpen.

De houdkracht moet ten minste 400 N (40 kg) per wandhoek bedragen.

- Waarschuwing voor verkeerde installatie.
- Als de bevestiging onvoldoende is, bestaat het risico van een ongeval!
- Gebruik de hendel om je bed te openen en te sluiten. Er bestaat gevaar voor verplettering!
- Attentie! Klemmings- en knijppunten aan de sluitranden!
- Veiligheidsadvies! Gebruik het bed niet zonder matras, omdat het bed dan automatisch kan instorten.

De inbouwarmaturen zijn onderhoudsvrij en geschikt voor een matrasgewicht van 13 - 21 kg.
Maximale matrashoogte 185mm.

Note importanti:

- **Attenzione!** **I bambini non dovrebbero usare il letto senza supervisione!**

- Il montaggio e l'ancoraggio alla parete e le successive regolazioni di questo letto basculante verticale devono essere eseguite solo da personale specializzato e addestrato.
- Questo letto pieghevole verticale deve poggiare su un pavimento solido e portante.
- Le irregolarità devono essere livellate con i cunei di compensazione allegati, in quanto questo letto deve essere orizzontale e perpendicolare.
- Questo letto basculante verticale deve essere ancorato alla parete con i supporti da parete forniti in dotazione prima di essere aperto per la prima volta. Per ogni angolo di parete devono essere utilizzate 4 viti. Deve essere garantita la capacità portante della parete.
- Si prega di utilizzare solo elementi di fissaggio di rivenditori specializzati, progettati anche per la vostra parete.

La forza di tenuta deve essere di almeno 400 N (40 kg) per ogni angolo di parete.

- Avviso di installazione errata.
- Se il fissaggio è inadeguato, sussiste il pericolo di incidenti!
- Usa la maniglia per aprire e chiudere il tuo letto. C'è il pericolo di schiacciamento!
- Attenzione! Punti di serraggio e compressione sui bordi di chiusura!
- Avvertenze di sicurezza! Non utilizzare il letto senza materasso, poiché il letto potrebbe collassare automaticamente.

Gli accessori da incasso sono esenti da manutenzione e adatti ad un peso del materasso di 13 - 21 kg.
Altezza massima del materasso 185mm.
