Overview

100 Word Product Description

The CORSAIR iCUE LINK 6500X RGB Mid-Tower Dual Chamber PC Case showcases your system behind two tempered glass panels, with three pre-installed RX120 RGB fans and an iCUE LINK System Hub to get you started. Ensure great performance for your system with room for up to 10x 120mm or 7x 140mm fans, and versatile radiator mounting options in the roof, bottom, and side. Compatibility with reverse connection motherboards gives you a cable-free view of your system. Route all your cables and mount up to four storage drives in the second chamber for a clean, picture-perfect build, while a modern front panel I/O including USB 3.2 Gen-2 Type-C offers convenient device access. With tons of features for easy buildability and a wide range of optional accessories available, the 6500X RGB is highly customizable for the most impressive PC builds for years to come.

Features

Style 1

- Two gorgeous tempered glass panels
- Dual chamber design for strong cooling and an organized look
- 3x Pre-installed RX120 RGB fans and iCUE LINK System Hub
- Compatible with reverse connection motherboards such as ASUS BTF and MSI Project Zero
- Fits 10x 120mm or 7x 140mm fans
- Versatile mounting positions for roof, bottom, and side radiators
- Customizable with a range of accessories
- Tons of quality-of-life features for easy buildability
- Tool-free drive mounts and sleds for up to 2x 3.5in and 2x 2.5in storage drives
- Modern front I/O panel including high-speed USB 3.2 Gen-2 Type-C port

- Supports iCUE LINK systems with built-in cable hooks
 - High-quality, durable construction backed by a two-year warranty
- Style 2**
- **Unrivaled Looks:** The 6500X RGB showcases your build behind two stunning tempered glass panels, with three pre-installed RX120 RGB fans and an iCUE LINK System Hub to start your build off right.
 - **Dual Chamber Design:** Promotes effective cooling and a cleaner, more organized build with one chamber equipped with a multitude of fan and radiator mounts, and the other providing abundant room for cable routing, drive storage, and PSU installation.
 - **Get Started with iCUE LINK:** The revolutionary iCUE LINK ecosystem makes building a PC easier than ever before, with far less cable complexity. Three pre-installed RX120 RGB fans light up your build.
 - **Compatible with Reverse Connection Motherboards:** Validated for use with new ASUS BTF and MSI Project Zero motherboards featuring connections on the back of the board, so your view isn't spoiled by plugged-in cables.
 - **Wide Cooling Flexibility:** Customize your cooling setup with room for up to 10x 120mm or 7x 140mm fans, including versatile radiator mounting options for up to 360mm in the roof, bottom, and side.
 - **A Picture-Perfect PC :** By keeping cables out of the way in the second chamber, it's exceedingly simple to build a stunning PC worthy of the show floor.
 - **A World of Personalization:** Customize your build with a range of optional accessories such as alternative material panels, a vertical GPU mount, and more for a truly unique setup.
 - **Take the Hassle out of Building:** Designed with a plethora of features for easy buildability, such as a simple pop-off front panel, fabric pull tabs for the top panel, one-twist Quikturn screws, durable yet flexible doubleshot grommets, and external cutouts for cable management.
 - **Expansive Storage Options:** Tool-free drive mounts for installing up to 2x 3.5in and 2x 2.5in storage drives to accommodate extensive game and media libraries.
 - **Modern Front Panel I/O:** A high-speed USB 3.2 Gen-2 Type-C port, 4x USB 3.2 Gen1 Type-A ports, and a 3.5mm combo audio jack put your devices in easy reach.
 - **Support for iCUE LINK:** Cut down on cable clutter when you build with CORSAIR iCUE LINK smart components (sold separately), with built-in iCUE LINK cable hooks to make it even easier to create your dream system.
 - **Premium Build & Two-Year Warranty:** Built with durable 3mm-thick steel panels and backed by a two-year warranty for your peace of mind.
