Key Organizer

MANUAL

#1

Choose the right extensions for the number of keys

#2

Start with the black spacer rings

#3

Use a black spacer ring between every key or tool

#4

End with a black spacer ring. So the keys can move easily. It should be even with the srew.

#5

If you don't have enough keys fill it up with the spacer rings until it is even.

#6

Make sure that the rubber rings are attached before mounting the key organizer

#7

You can use a coin to screw.
