

AERO 16 OLED BSF-A3DE964SQ

EAN 4719331989514

Modell	AERO 16 OLED (2023)
CPU	13te Gen. Intel® Core™ i9 -13900H 14 Kerne (6 Performance Kerne, 8 Effizienz-Kerne) 20 Threads 1,9GHz - 5,4 GHz
GPU	Intel® Iris®Xe Graphics NVIDIA® GeForce RTX™ 4070 Laptop GPU 8GB GDDR6 (max. TGP 105W, Boost-Takt 1980 MHz)
	NVIDIA Max-Q Technologies: CPU Optimizer, Rapid Core Scaling, Optimal Playable Settings, Dynamic Boost 2.0, Resizable BAR, Static Mux and Optimus™ Technology.
Betriebssystem	Windows 11 Pro + 1 Jahre Microsoft 365
Display	16.0" 4K UHD+ 3840x2400 OLED Display mit schmalem Rahmen (VESA DisplayHDR 600 TrueBlack, 100% DCI-P3, 60Hz Bildwiederholungsrate, TÜV Rheinland-zertifiziert, Eyesafe® 2.0) *X-Rite™ zertifiziert, einzeln werksseitig nach Pantone® kalibrierte Farbgenauigkeit
Arbeitsspeicher	32GB (2x16) DDR5 4800 (2 Bänke, max. 64GB)
Speicher	1TB PCIe Gen. 4 SSD (2 Bänke NVMe PCIe Gen. 4, M.2 Typ 2280)
Anschlüsse	1 x USB 3.2 Gen1 (Type A) 1 x USB 3.2 Gen 2 (Type C) 2x Thunderbolt™ 4 mit DP / 1 Port unterstützt Power delivery 1 x microSD Card Reader mit UHS-II support 1 x HDMI2.1 1 x 3.5mm Audio Kombistecker 1 x Netzteil
Audio	2x 2W Lautsprecher, Mikrofon, DTS:X® Ultra Audio Technology
Tastatur	deutsches Layout mit weißer Hintergrundbeleuchtung, 1,7mm Tastenweg
Kommunikation	WiFi: Intel® Wi-Fi 6E AX210 (Gig+) Wireless (802.11ax, a/b/g/n/ac/ax kompatibel) Bluetooth: Bluetooth® V5.2
Sicherheit	Firmware-basiertes TPM, unterstützt Intel® Platform Trust Technology (Intel® PTT) IR Sensor in Webcam integriert
Webcam	FHD (1080p) Webcam, eingebautes Mikrofon, Unterstützt Windows Hello
Netzteil	240W
Akku	88 Wh
Farbe	Twilight Silver
Material	CNC gefertigtes Aluminium-Gehäuse mit Anti-Fingerabdruck Beschichtung
mitgelieferte Apps	GIGABYTE Control Center Microsoft 365 (1 Jahr Lizenz)
Maße	35,4 (B) x 25,5 (T) x 2,2 (H)
Gewicht	~ 2.1 kg

AERO 16 OLED (2023)

REASON TO BUY THE AERO 16 OLED

EVERY COLOR COUNTS.

Creativity starts here! AERO 16 OLED is designed for professional creators, photographers, animators, and multimedia designers. We believe that with up to a dual certified color-accurate 16-inch 4K+ OLED HDR 16:10 bezel-less eyesafe® display, up to 13th gen powerful Intel® Core™ processors, NVIDIA® RTX™ graphics, pro-grade I/O connectivity, and exquisite CNC milling process thin & light design, all will be the key for inspirations to come to life with efficiency.

Featherweight Portability

This lightweight 16" laptop has a CNC milling tougher design, less than 19mm, and up to 7.5hrs of battery life, so mobile users can stay creativity on the road.

Efficiency Workflows Performance

The 13th Gen Intel® Core™ processors and GeForce RTX™ 40 laptop graphics enhanced by NVIDIA Studio empower both your creativity and productivity.

Seeing is Believing

Enjoy real-life visuals on a 16" 16:10 4K OLED HDR display edged with bezel-less design and get perfect color accuracy Delta E < 1. Combined with TÜV Eyesafe® certified eye protection, the AERO 16 OLED offers maximizing the working experience.

AERO 16 OLED (2023)

PRODUCT FEATURES OVERVIEW

- **Exquisite Aesthetic:** Designed with a CNC aluminum-alloy unibody and glassy smooth touchpad for a premium look.
- **Ultrathin and Featherweight Design:** Less than <2.2kg that you can pack light and move effortlessly for working and creating.
- **60Hz UHD+ OLED HDR display:** Brings crystal-clear, sharper and colorful image, maximizing the working area.
- **4-sided Bezel-less Display:** Maximize your screen real estate with a four-sided thin bezel and the minimizing corners of display.
- **Eyesafe® 2.0 Certified Display:** Eyesafe® 2.0 certified displays meet TÜV low blue light requirements and Eyesafe® 2.0 standards for protecting your eyes from harmful blue light without distorting colors. Displays with integrated Eyesafe® help reduce eyestrain and improve eye comfort when working for long periods of time.
- **Entire Day Battery Life:** Up to 7.5hr battery life and charge to 50% in approximately 30 minutes.
- **The Latest NVIDIA® GeForce® RTX™ GPUs:** Enjoy real-time ray tracing and all the power you need for a fast, smooth gaming experience.
- **The Latest Intel® Core™ processor:** Pave the way for the future of power and performance. Whether you are working, streaming, gaming, or creating could deliver the next generation of breakthrough performance.
- **Windforce Cooling Technology:** Stay silent under pressure with the brand-new laptop thermal solution. 4-sided venting and 4 heatpipes ensure optimal system stability and performance when applications heats up.
- **GIGABYTE Control Center:** Thanks to the Microsoft azure A.I. that optimized performance and lightness automatically without switch.

VISUAL

With the advanced 4 side bezels design and up to 90% StB ratio, you get all the workspace you need. The thinnest part is only 3mm.

The brand AERO 16 OLED adopts 16" 16:10 bezel-less screen, bringing broader view and the comfortable entertainment experience.

Each AERO panel is color calibrated by X-Rite™ calibration technology before it leaves the factory. Plus the Pantone® Validated certification, experience Delta E less than 1 perfect color accuracy the moment you turn on the AERO.

Boasting a film-industry standard of 100% DCI-P3 wide color gamut, images are presented ideal color reproduction with minimal effort.

Eyesafe® intelligently manages light energy at the source, that reduces eye-strain, offering more pleasant experiences for creators with long working hours.

AERO 16 OLED (2023)

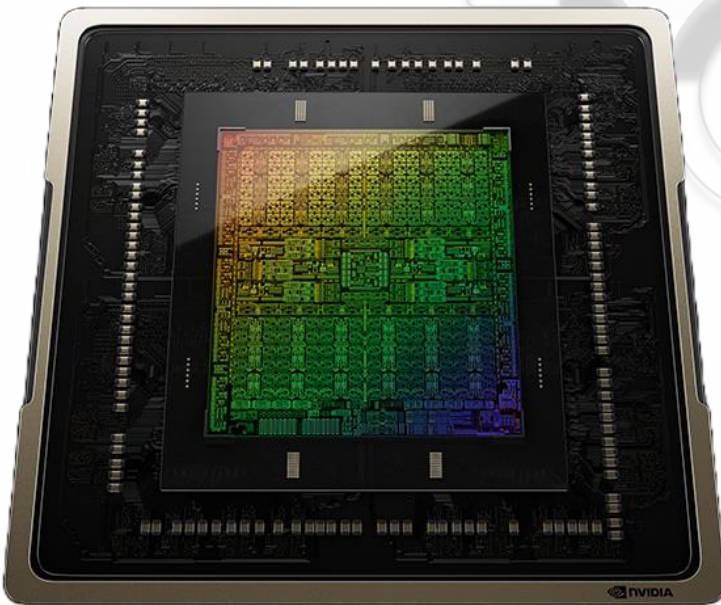

PERFORMANCE

The AERO takes an upgrade with the latest desktop-caliber mobile focused 14-core (6 Performance cores and 8 Efficiency cores) 13th Gen Intel® Core™ i9-13900H processor, offering you an unprecedented performance on demand, a portable & sleek lifestyle, anywhere you go.

More than

70%

Of the time spent on laptops requires CPU performance

The new NVIDIA® Ada Lovelace architecture delivers a quantum leap in performance, efficiency, and AI-powered graphics.

It has new Streaming Multiprocessors, 3rd generation Ray Tracing Cores, and 4th generation Tensor Cores. It's built on a new custom TSMC 4N process, runs with blazing fast clocks, and features a large L2 cache. It enables fast ray tracing, new ways to create, making content creation faster and easier than ever.

NVIDIA Max-Q Technologies:

CPU Optimizer, Rapid Core Scaling, Optimal Playable Settings, Dynamic Boost 2.0, Resizable BAR, Static Mux and Optimus™ Technology.

AERO 16 OLED (2023)

DESIGN

The AERO creates a simple yet complete chassis that still has a contemporary, clean and unique design. "Illusory Iridescent" is the soul of the design concept. The material can present an iridescent halo from different angles as the inspiration of creativity is telling stories in a different light.

Iridescent

"Illusory Iridescent" is the soul of the AERO Logo design concept. The material can present an iridescent halo from different angles as the inspiration of creativity is colorful.

CNC

The whole laptop body is made of an aluminum-alloy unibody by CNC milling process, where the world's exclusive production process is introduced: off-white silver anodizing.

Glass

The touchpad design using the wafer-level optic template through the nanoimprint lithography imprinted on the glass produces different angles of light refraction.

Sealing

The hinge of the laptop is embellished with an A-shaped decorative pattern, just like the sealing wax on the boutique gift box, waiting for the user to unbox.

PORTABILITY

AERO 16 OLED weighs less than 2.2kg and the thickness is only 1.8cm, ensuring you great mobility.

AERO carries a 88 Wh battery, suitable size for travel, up to 7.5Hrs battery life that allowing you to savor your creativity anywhere, anytime.

intel.
Wi-Fi 6E
Gig+

With the next-gen Wi-Fi 6E, AERO 16 OLED support not only the Wi-Fi 6 and the 2.4GHz and 5GHz bands of the previous generation, but also the 6GHz frequency band, enabling faster speed and lower delays.

*Specifications are subject to change without notice. GIGABYTE cannot be responsible for errors and omissions in typography or photography.

AERO 16 OLED (2023)

CREATOR FRIENDLY

- **Windforce Cooling System:** Comes with two fans, 4 heat pipes and 104% multi-face heat dissipation fins, ensuring that the AERO remains calm and minimal noise even under heavy multi-tasking large apps and read and write files.
- **A.I. Boost:** Automatically and dynamically adjust the best CPU and GPU wattage setting for different apps without hassle switch.
- **A.I. Eyecare:** Automatically determine the most comfortable brightness as different usage scenario that protects your eyes and reduces fatigue.
- **Compatibility Test:** Fully compatible with all GIGABYTE/AORUS accessories including monitors, keyboards, mouse and the external graphics box, creating an intensely powerful creative station.
- **TPM 2.0 Software-based:** Securely stores authentication information used by software, such as passwords or encryption keys, to protect important data and transactions by built-in TPM 2.0 processor on supported CPUs.
- **Windows Hello:** Equipped with the built-in facial recognition FHD1080P IR camera sensor for Windows Hello, offering you high privacy protection at a glance.
- **DDR5 Memory:** Comes with two slots supporting 4800mHz memory that handle multi-tasking and keep system steady.
- **Thunderbolt™ 4:** Achieves a transfer speed of up to 40Gbps and 8X faster than USB 3.1, in addition to reversible USB-C transfer port interface can output .
- **4K Matrix Video output:** Up to 3 external video output in 4K resolution and build a workstation anywhere, anytime.

CONTROL

- **Starry White Backlit Keyboard:** The laser-engraved white backlit keyboard with all function keys that is easily visible, and the N-Key rollover function could speed your workflow up in dark room.
- **Glass-covered Touchpad:** Just like the touch feeling of operating on your mobile phone and brings a smoother experience which supports Windows precision for precise control.

AERO 16 OLED (2023)

AUDIO

The new AERO series adopts the DTS:X™ Ultra audio technology, letting creator enjoy the full depth of high-fidelity audio. Virtual 7.1-channel surround sound innovation provides outstanding sound experience and performance. From gaming, watching movies to conference calls, DTS:X™ Ultra brings true 3D surround effect and voice communication is clearer than ever with Two-Way AI Noise Cancellation technology which removes noise from incoming and outgoing audio.

7.1 Channel Surround Sound

Experience sounds that move with precision above, around, and behind you.

Tuning Specific

Contains a database of more than 500 headphones that provides consumer's particular headphone to optimize the audio experience.

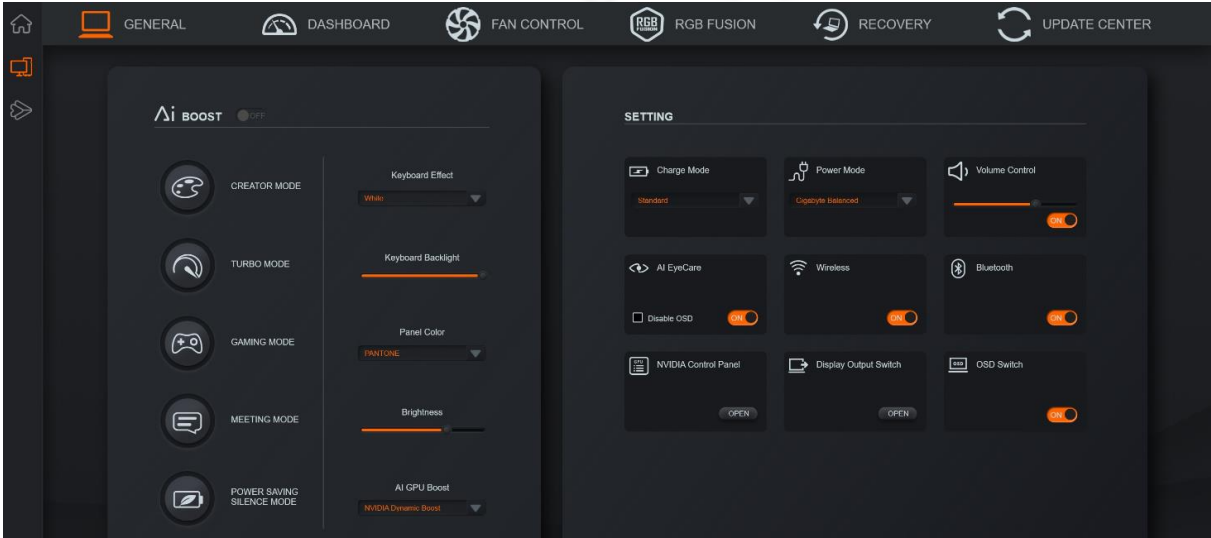

DTS Sound Unbound app

Enable to streaming playback of DTS-encoded content through the native media player or any web browser running Windows 10 with support for up to 11.1 multi-channel surround.

SOFTWARE

You can select the scenario modes or turn on the A.I. boost technology through GIGABYTE Control Center, including keyboard backlight, fan mode settings and control the load status of the CPU and GPU wattage in real time, as well as the common system settings.

*Specifications are subject to change without notice. GIGABYTE cannot be responsible for errors and omissions in typography or photography.
