Overview

50 Word Product Description

The CORSAIR iCUE LINK 2500X RGB Mid-Tower Dual Chamber PC Case provides a clean and organized view of your SFF PC through dual tempered glass panels, with two pre-installed RX120 RGB fans and an iCUE LINK System Hub to get you started in the revolutionary iCUE LINK ecosystem. Keep the cables out of sight by routing them in the second chamber.

Overview

100 Word Product Description

The CORSAIR iCUE LINK 2500X RGB Micro ATX Dual Chamber PC Case provides a clean and organized view of your SFF PC through dual tempered glass panels, with two pre-installed RX120 RGB fans and an iCUE LINK System Hub to get you started in the revolutionary iCUE LINK ecosystem. The 2500X RGB’s small size hides plenty of options for your cooling setup, with room for up to 9x 120mm or 4x 140mm fans and versatile radiator mounting options in the roof, bottom, and side. Compatibility with reverse connection motherboards gives you a cable-free view of your system. Easy tool-free drive mounts accommodate up to 2x 3.5in or 2x 2.5in storage drives, while a modern front panel I/O including USB 3.2 Gen-2 Type-C offers convenient device access. Built for simplicity and offering a range of customization options, the 2500X RGB ensures your SFF PC shines and performs at its best.

Features

Style 1

- Two gorgeous tempered glass panels
- mATX form-factor for SFF builds
- 2x Pre-installed RX120 RGB fans and iCUE LINK System Hub
- Compatible with reverse connection motherboards such as ASUS BTF and MSI Project Zero
- Dual chamber design for strong cooling and an organized look
- Fits 9x 120mm or 4x 140mm fans
- Versatile mounting positions for roof, bottom, and side radiators
- Customizable with a range of accessories
- Tons of quality-of-life features for easy buildability
- Tool-free drive mounts and sleds for up to 2x 3.5in or 2x 2.5in storage drives

- Modern front I/O panel including high-speed USB 3.2 Gen-2 Type-C port
 - Supports iCUE LINK systems with built-in cable hooks
 - High-quality, durable construction backed by a two-year warranty
- Style 2**
- **Unrivaled Looks for Your SFF PC:** The 2500X RGB's head-turning design showcases your small-form-factor build behind two stunning tempered glass panels, with two pre-installed RX120 RGB fans and an iCUE LINK System Hub to start you off building a fast and easy iCUE LINK PC.
 - **Dual Chamber Design:** Promotes effective cooling and a cleaner, more organized build with one chamber equipped with a multitude of fan and radiator mounts, and the other providing abundant room for cable routing, drive storage, and PSU installation.
 - **Get Started with iCUE LINK:** The revolutionary iCUE LINK ecosystem makes building a PC easier than ever before, with far less cable complexity. Two pre-installed RX120 RGB fans light up your build.
 - **Compatible with Reverse Connection Motherboards:** Validated for use with new ASUS BTF and MSI Project Zero motherboards featuring connections on the back of the board, so your view isn't spoiled by plugged-in cables.
 - **Wide-Ranging Cooling Options:** Optimize your cooling with room for up to 9x 120mm or 4x 140mm fans, including versatile radiator mounting positions for up to 360mm in the roof and bottom and room for 240mm on the side.
 - **A Picture-Perfect PC:** Keeping cables out of the way in the second chamber makes it easier to build a stunning PC worthy of the show floor.
 - **A World of Personalization:** Customize your build with a range of optional accessories such as alternative material replacement panels, a vertical GPU mount, and more for a truly unique setup.
 - **Built for Simplicity:** Designed with a plethora of features for easy buildability, such as iCUE LINK single-cable connectivity, a simple pop-off front panel, fabric pull tabs for the top panel, time-saving one-twist Quikturn screws, durable yet flexible doubleshot grommets, and external cutouts for cable management.
 - **Expansive Storage Options:** Tool-free drive mounts for installing up to 2x 3.5in or 2x 2.5in storage drives for extensive game and media libraries.
 - **Modern Front Panel I/O:** A high-speed USB 3.2 Gen-2 Type-C port, 2x USB 3.2 Gen1 Type-A ports, and a 3.5mm combo audio jack put your devices in easy reach.
 - **Supports iCUE LINK Systems:** Expand on your included RX120 RGB fans with additional iCUE LINK smart components (sold separately), using built-in iCUE LINK cable hooks to make it even easier to create your dream system.
 - **Premium Build & Two-Year Warranty:** The 2500X RGB is built with durable 3mm-thick steel panels and backed by a two-year warranty for your peace of mind.
