(DJ) Sehr geehrter Kunde,

als Möbelproduzent möchten wir Sie darüber informieren, dass eine Befestigung nur so gut ist wie die Verbindung zwischen Befestigungsmaterial (Dübel) und Mauerwerk. Prüfen Sie bei Hangelementen Ihr Mauerwerk und verwenden Sie nur dafür vorgesehene Dübel aus einem Fachmarkt. Letztendlich ist der Monteur für die Befestigung am Mauerwerk verantwortlich.

Die Montage und das Verlegen der Elektroartikel sind nur von autorisiertem Fachpersonal durchzuführen. Beachten Sie die Beschreibungen und die Gewichtsangaben in der Montageanleitung.

Halten Sie bitte die angegebenen max. Gewichtsangaben ein. Bei Oberlastungen, die durch spielende Kinder, Menschen, Material oder sonstige Einwirkungen entstehen – iibemeihen wir als Möbelproduzent keine Haftung!

Die einwandfreie Funktion des Möbels ist nur bei lot- und waagerechter Aufstellung gewährleistet. Die Türen sind vorjustiert, müssen aber ggf. aufgrund örtlicher Bedingungen neu ausgerichtet / eingestellt werden!

Alle elektrischen Installationen sind nach den gültigen Normen bzw. Vorschriften von VDE, CE, MM gefertigt. Die zu verwendende Leuchtmittelstärke ist auf der jeweiligen Lampenfassung angegeben.

Bei Nichteinhaltung der max. Wattzahl besteht durch Überhitzung Brandgefahr. Das Zudecken der Leuchtmittel ist wegen Brandgefahr zu unterlassen!

Alle Schrauben sowie tragende Verbindungsstelle sollten nach 5 bis 6 Wochen nachgezogen werden, um eine dauerhafte Standsicherheit zu gewahren!

Keine scheuernden Putzmittel verwenden!

Werden Betriebs-, Bedienungs- oder Montageanweisungen nicht befolgt, Änderungen an den Produkten vorgenommen, Teile ausgetauscht oder Verbrauchsmaterialien verwendet, die nicht den Originalteilen entsprechen, so entfällt jegliche Gewährleistung oder Haftungsansprüche.

(GB) Dear Customer,

As a furniture manufacturer we would like to point out that an attachment is only as good as the connection between the attachment material (dowel) and masonry. In the case of suspension elements you should check your masonry and only use the appropriate dowels from a specialist store. Ultimately it is the person carrying out the installation who is responsible for attachment to the masonry.

The installation and laying of electrical lines and other items must only be performed by authorised specialists. Please note the descriptions and weight information in the installation instructions.

Please observe the stated maximum weights; in the case of mechanical overloads caused by playing children, other individuals, materials etc. we do not accept any liability as the manufacturer of the furniture!

The furniture is only guaranteed to work perfectly if it is set up to be plumb and horizontal. The doors have been pre-adjusted, but may need to be realigned/readjusted in accordance with local conditions!

All electrical installations have been produced in accordance with the latest norms and regulations, such as those of the VDE (Association of German Electrical Engineers), CE and MM. The power of the bulbs to be used is marked on the respective light fitting. If the maximum number of watts stated on the fitting is not complied with, there is a danger of fire from overheating. Covering the lamps and bulbs is strictly prohibited due to the danger of fire!

All screws and load-bearing connecting parts should be tightened after 5 to 6 weeks in order to ensure long-term stability!

Do not use any abrasive cleaning materials!

If the operating or installation instructions are not complied with, modifications are carried out to the products, parts replaced or consumable materials used which do not correspond to the original parts, all warranty or liability claims shall become null and void.
