

## Smart 4G battery-driven camera, 2mp

SH-IPC10

Capture every moment with this 4G battery-driven camera! With a 2MP camera and built-in microphone and speaker, you can easily communicate with those on the other end. Plus, with motion detection and motion zone setting, you won't miss a beat. The PIR\* detection range of 10m and detection angle of 120° means you'll always know what's going on, even in the dark. The camera has a built-in PIR sensor\*

With the DELTACO Smart Home app, you take care of all the handling for the camera. Installation is quick and smooth without the need for special hubs or gateways. In the app, you can easily manage the settings on your camera even when you are not at home. In addition to managing the camera's settings, you can also enable motion detection, either to be on all the time or to schedule the camera to be active at certain times of the day. You also manage previous recordings that the camera has made, or you can take a screenshot alternatively record.

The DELTACO Smart Home app is available for free for both Android and iOS!

*\*A PIR (Passive Infrared) sensor is an electronic device that detects the presence of infrared radiation emitted by objects within its field of view. The camera can be set to turn on when detecting motion.*
