## Safety Precautions must be followed

### Product Care and Maintenance

Caution

- This appliance may only be repaired by a service center designated by the manufacturer. Users cannot disassemble or repair it by themselves.
- Remember to turn off the main power switch after use.
- Do not use this product if the power socket becomes loose.
- If this product will be left unused for a long period of time, it is necessary to roll up the power cord of this product and store this product in a dry and dust-free environment.
- Do not store this product at a high temperature or near open flame. Avoid prolonged exposure to direct sunshine.
- Please clean this product with dry cloth. Never use thinner, benzene or alcohol.
- The mechanism of this appliance were specially designed and manufactured and don't require special maintenance.
- Do not use a sharp object to stab at this product.
- Do not roll or pull this product on any uneven ground. Instead, it should be lifted before moving.
- Please use this product intermittently. Do not keep it working continuously for a long period of time.

### Operating environment

Caution

- Do not use this product in a very moist environment such as the bathroom.
- Do not use this product in any heavily-dusty or caustic environment.
- Do not use this product in a small space or a place without good ventilation.

### Solutions to ordinary malfunctions

Caution

- If the motor sounds during operation of this product, this is the normal operation sound.
- If the controller cannot work normally, check whether the plug and the power socket are connected reliably, and whether the power switch is turned on.
- If the rated working time is over, this appliance will automatically activate the power-off button; If this product keeps operating for a long period of time, the temperature protector will stop this product automatically. The product can be used again after half an hour.

## Installation parts

### Calf installation instructions

1. Insert the wire of the calf and the air pipe into the front socket of the steel frame assembly (Figure 1).
2. Then push the connected wire and air pipe into the hole in the backrest frame (Figure 2).
3. After the wire docking is completed, open the calf fixing covers on both sides of the steel frame assembly (Figure 3).
4. Lift the calf into the notch, close the fixing covers, and secure it in place with 2 pieces screws (Figure 4).

Note: this step can be ignored for all-in-one installation.

## Place massage chair

### Installation placement

**Make sure there is enough space for the massage chair can be tilted at least 15 cm.**

Do not expose the massage chair directly to high temperature environment due to sunlight (such as: in front of heating equipment), and place it to where can avoid high temperature and direct sunlight. It is recommended to lay a soft cushion for long-term use in a designated location. When laying the cushion, the size of the cushion should be enough to cover the range where the machine touches the floor and the range where your feet touch the floor.

### Product lift instruction

**Require team work to lift and move the chair to avoid injury.**

1. Please lift the massage chair to move it on vulnerable ground such as wooden floor.
2. When moving on a similar wooden floor, it is recommended to lift it. Avoid damage to the casters. When the floor is lifted and moved to the designated position, be careful to keep your hands out of the way to avoid injury, and be careful of your feet being crushed. Do not let go of the unit until the unit is completely flat, the floor may be damaged, therefore, it is recommended to place mats, etc. on the floor.

## Place massage chair

### Move method

**Use the rear casters to move the massage chair. Move the chair by tilting it down and backward about 45° as shown in the diagram.**

**NOTE: Excessive force to title will cause the chair to tip over completely and product damage.**

1. Before moving, please shut down the machine properly to reset the whole machine, and then cut off the power.
2. Please keep the chair vacant when moving. (People, pets or clutter will not be able to stay on the chair.)
3. When moving, do not cross a drop barrier higher than 2mm or a gap greater than 5mm.
4. When using casters to move this product, single continuous movement is not supported; if the distance exceeds 50 meters, please make this product move slowly and evenly.

### How to disassemble and use headrest cushion and backrest cushion

Using a headrest cushion can reduce the intensity of kneading massage on the neck and shoulders, and you can decide whether to use a headrest cushion according to your needs (recommended to use a headrest cushion). The backrest cushion and the backrest are connected by a zipper (1), and the headrest cushion and the backrest cushion are connected by a zipper (2).

## Before use

### Check around

Make sure that there are no people, pets and other objects around the unit.

### Make sure there are no foreign objects in the gaps of the machine

Before massaging, make sure that no foreign objects are caught in the legs, feet, etc. Under no circumstances allow hands, feet, and head to penetrate into the area between the lower leg mechanism and main body, or the area between the armrest and the capsule. Under no circumstances should hands, feet, or head sink under the fabric or leather covering of the massage area.

## Before Use

### Turn on the power

#### Caution

Plug in power cord

Schematic diagram of power on

Turn on the power switch ("I" position)

- Please check whether the power cord and power plug are damaged before use.
- Please supply power to this product in accordance with the working power requirements of this product's calibration.
- It is strictly forbidden to use a power supply other than the nominal power supply of this product.
- It is strictly forbidden to connect various power conversion devices to supply power to this product without authorization.

- 2) Press the "M" key to activate the custom save mode, select "M1," and then press "Memory" to store the settings in M1.
- 3) For subsequent use, simply press "M1" to activate the customized mode with your preferred settings.

## Cleaning and Maintenance

### Clean PU leather and plastic parts

Wipe the leather with a soft, dry cloth.

- Do not use chemicals such as thinner, gasoline, alcohol, etc. to clean the unit.
- When using commercially available leather care products (rags), please follow the instructions for use.
- If the PU leather is particularly dirty, wipe it by the following methods.
  - ① Immerse a soft cloth in water or hot water containing 3% to 5% neutral detergent, then wring it out thoroughly.
  - ② Use the above soft cloth to wipe the leather surface.
  - ③ Wipe off the cleaning solution with a cloth soaked in clean water and thoroughly wrung out.
  - ④ Wipe with a wrung soft cloth.
  - ⑤ Let it air dry naturally.
- When it is difficult to remove stains, please immerse commercially available melamine foam in neutral detergent, and then wipe the machine with it.
- Do not use a hair dryer to dry the surface.
- As the color of the fabric will stain the surface of the PU leather, be careful when wiping the chair with denim and colored fabrics.
- Do not keep these parts in contact with plastic for a long time, as this will cause discoloration.
- PU leather may be discolored, so when using hair dye, please cover the touched part with a towel.

## Troubleshooting

<b>Fault</b>	When the calf mechanism or the backrest reaches a certain position, press the corresponding adjustment button and it will no longer change, and a continuous "beep, beep" sound will be emitted.
<b>Solution</b>	Due to product structure design and ergonomic requirements, this product has a limited protection design for the limit state of attitude adjustment. At the same time, a reminder sound will sound when the limit is reached.

<b>Fault</b>	The function does not work or some functions do not work after the machine is turned on.
<b>Solution</b>	After the machine is turned on by pressing the switch key, it is necessary to manually select an automatic massage program or other working state. If it is not operated, the machine will automatically shut down after 20 minutes. If the manual operation mode is selected, the functions that are not selected may be disabled, and the working mode needs to be manually set in the manual mode.

<b>Fault</b>	The machine makes a leather rubbing sound when adjusting its posture.
<b>Solution</b>	This product adopts high-grade anti-corrosion leather that meets environmental protection requirements. Due to the inherent characteristics of leather materials, there will be a normal slight noise when rubbing at the relative movement, which is a normal phenomenon. Note: If you hear fabric or leather tearing sound when the machine is running, please stop using it immediately and seek professional maintenance.

<b>Fault</b>	mechanical hand did not reach the shoulders or neck.
<b>Solution</b>	If the head does not touch the head cushion or the back does not touch the backrest, the shoulder position may be lower than the actual position during the body shape detection process. Sit in the deepest position of the seat, rest your head on the headrest, and start over from the beginning.

<b>Fault</b>	The unit is damaged. The power cord or power plug is abnormally hot.
<b>Solution</b>	To prevent accidents, be sure to contact an authorized service center.

Please feel free to contact the designated service personnel for any questions or doubts about this product.
