Component description

1. Cover plate

2. Installation template

3. Fixation part

Fixing plate

Adjustment plates

Seat bolts

Nuts

4. Adapter

5. tube

6. User manual

Installation steps

• Installation tools

Cross screwdriver

Monkey wrench

Barrel and rag

• Attention before installation

1. Water pressure range: 0.07-0.8MPa, please follow the instructions.
2. Corner valves shall be located close to the location where this product is installed and disassembled.
3. Please use the braided hose that comes with the product to prevent water leakage.
4. When installing braided hose, be careful to prevent the black gasket falling out.

• Installation Procedure

1. Loosen the nut connecting and remove the old cover.

2. Place the installation template on the ceramic as shown. Align it with the rim of toilet.

3. ① Insert the nuts into ceramic hole;
② Place fixing plate in notch part of template;
③ Place adjusting plate in fixing plate;
④ Align seat bolts hole, and tighten up;

Installation steps

Position the template onto the bowl and use it as a guide to align the mounting plate

Position the mounting plate over the bowl holes, insert the adjustment plates into the mounting plate to align with the bowl holes, install the seat bolts and nuts to secure the mounting plate to the bowl

Position the seat over the mounting plate [the back of the seat needs to align with the back notch], then slide the seat backwards.

There will be an audible click when engaged correctly.

To remove the seat, press the release button on the side of the seat and slide it forwards as far as possible, then lift off.

Install the adapter onto the stop valve. Install the tube and existing pipe onto the adapter

Turn on the stop valve and turn on the bidet. Check all joints for leaks.

Function introduction

- Konb function

Posterior Cleaning

Feminine Cleaning

OPERATION

To activate the bidet, turn the control knob forwards or backwards until it clicks, Turn further to increase the pressure, Return to the upright position to turn off.

Cleaning and maintenance

• Manual cleaning of spray tube

- Gently pull out the nozzle and dip the neutral detergent with a soft cloth, sponge or small brush.
- Gently support the nozzle, wipe the spray tube and nozzle.

• Clean filter screen

i Tips:

- Make sure that the corner valve close off before you clean the filter screen ;
- Clean the filter screen when the water flow is less than normal hours.
- During cleaning process, the product must be thoroughly separated from the water inlet hose;
- Reinstall the filter screen in reverse order after cleaning.

• Product surface cleaning

- Wipe the product surface with a sponge or soft cloth dampened with room temperature water or a neutral detergent.
- Lift the upper cover and the seat ring when cleaning other parts with cleaning agents.
- Do not put cover on before the cleaning agent in the ceramic toilet is completely washed, otherwise the surface may be corroded by the evaporation of cleaning agent.

Product technical specification

Items		Description
Water supply pressure		0.07-0.8 MPa
Water supply temperature		Water at room temperature
Ambient temperature		0 ~ 40℃
Net weight		About 2.8kg
Cleaning device	Water amount regulation	Stepless regulation
	Protective device	Anti-backflow valve
Others	Antibacterial material	Nozzle
	Control operation	Knob

Faults and solutions

Phenomenon	Possible cause	Solution
Low flushing	Knob is not completely turned on.	Increase knob regulating angle.
	Water pressure too low	Contact relevant departments to solve water pressure problems
Turn on knob and no the water comes out	Valve is off	Open the vavle
	The filter of the water inlet pipe is blocked	Clean the filter of the water inlet pipe
	Nozzle clogging	Remove the nozzle and clean
Spray rod cannot reset	Water quality is too bad to blocking the spray rod	Clean spray rod
Base leaking	Water pressure too high	Contact relevant departments to solve water pressure problems
