CUSTOMERS MAKE A PURCHASE TOO!

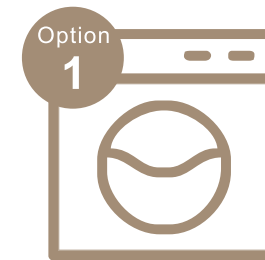

YOU'RE IN LOVE,
YOU'RE IN LOVE, AND YOU DON'T CARE WHO KNOWS IT.

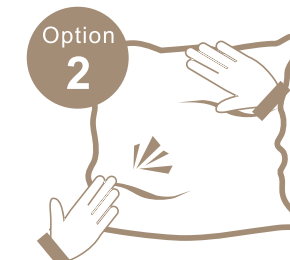

Great comfort and support are essential to a good night's sleep. To create the bed of your dreams, please use comforters / mattress pads / pillows according to the basic guide.

FIRST TIME USE GUIDE

Our bedding comes in a vacuum sealed bag. Once out of the package, do the following to regain the fluffiness and shape.

Tumble In a Dryer
for 10 Minutes at Low

Shake Well and Air It
for Few Minutes

CARE INSTRUCTIONS

- Roll packed comforters and pillows which have been compressed for transport. It may take a few days to regain their correct shape and fluffiness. Please pat it lightly to make it fluffy.
- You can prolong the life of your pillows and comforters with a pillow protector / duvet cover which protects them from stains and dirt.
- Allergens thrive in damp, warm and dark environments. Therefore, when you wake up in the morning, air your comforters and pillows well so remaining moisture can evaporate before putting them back on the bed.
- To keep your comforters and pillows free from allergens and dirt, **carefully follow the washing instructions.**
- Air your comforters and pillows often so they will be free from dust and stay fresh and dry.
- Down and feathers have a natural smell which will fade away once you have taken them out of the package and have aired them for some time.
- For down and feather comforters and pillows you should only use one third of the normal amount of detergent and wash them separately.
- After washing, dry your natural comforters and pillows in the tumble dryer without delay until the filling is completely dry.
