A compact 65% mechanical keyboard, combined with a fully transparent design and vibrant RGB lighting, this keyboard takes your gaming experience to new heights. With N-Key rollover, KTT switches, hot-swappable functionality and downloadable software, you have the flexibility to customize your settings.

100% Gaming in a 65% layout
This compact keyboard features dedicated arrow keys and function keys. Whether you're on the go or have limited desk space, you can effortlessly carry it with you, allowing you to play from anywhere.

Illuminated and colorful to the max
The transparent design in combination with the illuminated effect created by the vibrant RGB lighting enhances visibility and transforms this keyboard into a visually striking device. Different lighting configurations can be assigned to specific keys or groups of keys. Additionally, this keyboard provides a unique feature that enables you to independently customize the lighting on both the keys and the sides of the keyboard using just a few simple keystrokes.

N-Key rollover
This feature allows simultaneous key presses without interference, recognizing each key separately. Gamers benefit from the ability to press multiple keys simultaneously.

Hot-Swappable Switches
Known for their tactile feedback and responsiveness, these content KTT linear switches provide a satisfying click and quick actuation for precise key presses. The keyboard also offers hot-swappable switches for easy customization without powering off or restarting.

Rotary knob
The convenient rotary knob allows quick and easy volume adjustment without the need to search for volume buttons.

Adjust with software
Customize the keyboard using the provided software. Take full control of the RGB lighting with 16 million colors, create macros, save custom profiles, and switch between them as needed.

SPECIFICATIONS

Product depth	30 mm
