Möbel mit FSC®-Zertifikat

Holz als Rohstoff für Möbel ist unübertroffen – von der Ausstrahlung über die Ästhetik bis zu den vielfältigen Möglichkeiten des Designs.

Doch das Holz dieser Möbel bietet noch mehr:

Das Warenzeichen des FSC weist nach, dass das verwendete

Holz aus Wäldern stammt, die nach strengen ökologischen, sozialen und wirtschaftlichen Standards nachhaltig bewirtschaftet werden. Das heißt zum Beispiel: Erhalt der Artenvielfalt und kein Raubbau.

Im FSC haben sich unter anderem Naturschutzorganisationen, Waldbesitzer, Vertreter der Holzindustrie und Gewerkschaften zusammengeschlossen, um weltweit eine nachhaltige Nutzung der Wälder durchzusetzen. Unabhängige Zertifizierungsunternehmen begutachten die Herkunftsbetriebe und verleihen das Siegel nur dann, wenn die Prinzipien und Kriterien des FSC eingehalten werden. Die lückenlose Überprüfung der Handels- und Verarbeitungskette vom Wald bis zum Markt sorgt dafür, dass mit dem Siegel der Marke FSC kein Missbrauch betrieben werden kann.

Ein Schritt in die Zukunft, denn ein nachhaltiger Umgang mit unseren Wäldern sichert langfristig ihren Erhalt, ihren Artenreichtum und damit auch Lebensqualität für heutige und künftige Generationen.

FSC[®] certified furniture

As a raw material for making furniture, wood has no equal – from its vibrancy through its aesthetics to its many design possibilities.

But the wood from which this furniture is made has even more to offer:

The FSC label proves that the wood used comes from forests managed to strict ecological, social and economic standards with lasting effect. This means, for example, that forest biodiversity is maintained and overexploitation does not take place.

Environmental organisations, forest owners, representatives of the wood industry and unions, amongst others, have come together in the FSC to support the responsible management of forests around the world. Independent certification companies certify the origin of the wood and only award the quality mark if the principles and criteria of the FSC have been met. The tracking of the timber through processing chain from the forest to the market ensures that the seal of the FSC certificate can be trusted.

This represents a step towards the future, because sustainable management of our forests secures their long-term preservation, biodiversity and thus the quality of life for the generations of today and of tomorrow.

Meble z certyfikatem FSC®

Drewno to wciąż najlepszy surowiec wykorzystywany do produkcji mebli zarówno z uwagi na atmosferę, jaką kreuje, jak i estetykę oraz oferowane przezeń różnorodne możliwości designu.

Drewno, z którego wykonano te meble, odznacza się dodatkowymi walorami:

Umieszczony na nim znak FSC wskazuje na fakt, że pochodzi ono z lasów, które są zarządzane zgodnie z najwyższymi światowymi wymogami ekologicznymi, społecznymi i gospodarczymi. Oznacza to na przykład, że w lasach z certyfikatem FSC zachowuje się różnorodność gatunkową roślin i nie prowadzi gospodarki rabunkowej.

Skupione w FSC organizacje stojące na straży ochrony przyrody, właściele i zarządcy lasów oraz przedstawiciele przemysłu drzewnego i związków zawodowych działają na całym świecie na rzecz ochrony lasów. Niezależnie instytucje certyfikujące oceniają zakłady gospodarki leśnej i przyznają znak jakości tylko wówczas, gdy zostaną spełnione stawiane przez FSC zasady i kryteria. Dokładna kontrola sieci handlowej i punktów przetwórstwa (kontrola od lasu aż po rynki zbytu) sprawia, że w przypadku certyfikatów FSC nie dochodzi do żadnych nadużyć.

Jest to znaczący krok naprzód, gdyż przestrzeganie zasady zrównowagowanego rozwoju lasów jest gwarancją ich przetrwania, zachowania w nich bogactwa gatunków, a co za tym idzie, także właściwej jakości życia obecnych i przyszłych pokoleń.

FSC® (Orman Yönetim Konseyi) Sertifikal mobilyalar

Mobilyalar için hammadde olarak ahşaptan daha iyisi yoktur. Bu gerçek, uyandırdığı etkiden başlayıp estetik devam ederek, şekillendirilmedi bulunan sayısız olanaklara kadar geçerlidir.

Fakat bu mobilyaların ahşabı bundan daha fazlasını sunmaktadır:

FSC ürün simgesi, kullanılan ahşabın, ekolojik, sosyal ve ticari açıdan en üst standartlara göre sürdürülebilir şekilde yönetilen ormanlardan elde edildiğini kanıtlar. Bu, çeşitliliğinin korunması ve orman katliamı yapmadan faydalanma anlamına gelmektedir.

FSC organizasyonunda, diğerlerinin yanı sıra, tabii koruma organizasyonları, orman sahipleri, orman ürünleri analizi temsilcileri ve sendikalar, ormanların kalıcı olarak korunmasını dünya çapında sağlayabilmek için bir araya gelmişlerdir. Kaynak şirketleri sürekli olarak, bağımsız sertifikalandırma şirketleri tarafından teftiş edilir ve ancak FSC için prensipleri ve kriterleri yerine getirilirse, onay belgesi verilir. Ormanda başlayan ve piyasada satışa kadar olan ticari ve işleme zincirinin kesintisiz olarak denetim altında tutulması sayesinde, FSC kalite damgasının sürdürülebilirliği engellenmektedir.

Bu, geleceğe doğru atılan bir adımdır, çünkü ormanlarımızı sürdürülebilir şekilde işletmek, uzun vadede hem onların hayatta kalmalarını ve çeşitliliğini garanti altına alır hem de bugünkü ve gelecekteki nesiller için yaşam kalitesini yükseltir.

Meubelen met FSC®-certificaat

Hout als grondstof voor meubelen is niet te evenaren—van de uitstraling via de esthetiek tot de veelzijdige mogelijkheden van het design.

Maar het hout van deze meubelen biedt nog meer:

Het FSC-keurmerk biedt de garantie dat het gebruikte hout afkomstig is uit bossen die verantwoord worden beheerd volgens strenge ecologische, sociale en economische principes. Dit betekent bijvoorbeeld dat biodiversiteit wordt behouden en dat rooibouw niet is toegestaan.

Binnen de organisatie FSC hebben zich onder andere natuurbeschermingsorganisaties, boseigenaren, vertegenwoordigers van de houtindustrie en vakbonden verenigd, om zo wereldwijd een duurzame bescherming van bossen te realiseren. Onafhankelijke certificeerders beoordelen bosconcessies en verlenen het keurmerk alleen, als de principes en criteria van FSC worden nageleefd. De controle van de handels- en verwerkingsketen die daarnaast plaatsvindt maakt de keten van het bos tot aan de eindgebruiker sluitend en biedt de garantie dat producten met het FSC-keurmerk daadwerkelijk afkomstig zijn uit verantwoord beheerde bossen.

Dit biedt een stap richting de toekomst, want een duurzame omgang met onze bossen garandeert het behoud ervan en de rijkdom aan soorten op de lange termijn. Daarnaast heeft dit ook een positieve invloed op de levenskwaliteit voor de huidige en toekomstige generaties mensen die van het bos afhankelijk zijn.

Мебель с сертификатом FSC®

Дерево в качестве сырья для мебели является непревзойденным материалом благодаря своему внешнему виду, эстетике и разнообразным возможностям дизайна. Дерево, из которого изготовлена данная мебель, обладает дополнительными качествами.

Товарный знак FSC доказывает, что используемая древесина происходит из лесов, постоянно контролируемых со стороны строгих экологических, социальных и экономических стандартов. Это значит, что в этих лесах сохраняется разнообразие видов и не допускается незаконная вырубка. Лесной попечительский совет (FSC) был создан по инициативе экологических организаций, владельцев лесных угодий, представителей деревообрабатывающей промышленности, профсоюзов. Они объединили свои усилия, чтобы добиться постоянной защиты лесов во всем мире. Независимые организации, занимающиеся сертификацией, проводят экспертизы на предприятиях, с которых поставляется материал, и предоставляют право на печать знака качества лишь в том случае, если соблюдены все принципы и критерии FSC. Непрерывная проверка всей цепочки от леса до рынка гарантирует, что со знаком качества FSC не может быть связано злоупотребление природными ресурсами.

Это шаг в будущее, ведь бережное обращение с лесами нашей планеты позволит долгие годы сохранять их разнообразие видов, а значит и качество жизни для нынешних и будущих поколений.

Mobili con certificazione FSC

Come materia prima per i mobili, il legno è insuperabile—dal fascino all'estetica e fino alle molteplici possibilità di design.

Ma il legno di questi mobili offre ancora di più:

il marchio FSC garantisce che il legno utilizzato proviene da foreste gestite in maniera responsabile, secondo i rigidi standard ecologici, sociali ed economici. Ciò significa ad esempio: conservazione della biodiversità e selvaggi rispetto dei limiti di prelievo del legname.

All'interno di FSC organizzazioni per la tutela ambientale, proprietari forestali, operatori dell'industria del legno e sindacati operano congiuntamente al fine di promuovere la gestione responsabile delle foreste a livello mondiale.

Organismi di certificazione indipendenti verificano le foreste d'origine del legno e conferiscono il marchio di qualità solo se sono rispettati i principi e criteri del FSC. L'efficace controllo della filiera commerciale e di lavorazione, dalla foresta al mercato, previene abusi del marchio FSC.

Tutto ciò rappresenta un passo verso il futuro, perché la gestione responsabile delle nostre foreste assicura la loro conservazione nel tempo, la tutela della biodiversità e quindi anche la qualità di vita delle generazioni presenti e future.

Le FSC comprend entre autres des organisations de protection de la nature, des propriétaires de forêts, des représentants de l'industrie du bois et des syndicats qui se sont regroupés pour imposer une certification durable dans le monde entier. Des entreprises de certification indépendantes expertisent les entreprises d'origine et décernent le sigle de qualité lorsque les principes et les critères du FSC sont respectés. Le contrôle sans faille de la chaîne de commercialisation et de traitement, de la forêt jusqu'au marché permet qu'il n'y ait aucun abus de la marque FSC.

C'est un pas vers l'avenir car un traitement durable de nos forêts assure à long terme leur conservation, leur diversité et, ainsi, la qualité de vie pour les générations d'aujourd'hui et de demain.

Lemnul ca materie primă pentru mobilă este imbatabil la colorit, estetică și până la posibilitățile multiple de design.

Și totuși lemnul acestui mobilier oferă și mai mult: Marca FSC dovedește că că lemnul utilizat provine din păduri administrate conform standardelor strict ecologice, sociale și economice stabilite pe termen lung. Aceasta înseamnă de exemplu: conservarea biodiversității și exploatarea judicioasă.

FSC * tanúsítással rendelkező bútörök

A bútörök alapanyagaként használt faanyagot semmi sem múlthatja felül-esztetikus kisugárzása számos kialakítást és dizájn tesz lehetővé.

Ezen bútör faanyaga még ennél is többet nyújt:

Az FSC termékjelölést azt igazolja, hogy a felhasznált faanyag olyan erdőből származik, amelynek művelése megfelel a szigorú ökológiai, szociális és gazdasági standardoknak/elvárásoknak. Ez például a következőt jelenti: Az erdőben számos fajtája található, az nem rablógazdálkodás eredménye.

Az FSC természetvédő szervezetek, erdőtulajdonosok és a fa iparág és üzemek képviselőiből áll, akik közösen tevékenykednek azon, hogy kitaróan védjék a világ erdőit. Az alapanyag forrását független tanúsító szervezetek tanúsítják; a termékjelölést csak akkor engedélyezik, ha az FSC minden alapelvét és követelményét betartják. Az erdőtől az értékesítésig tartó kereskedőkből és megmunkálókából álló lánc teljes körű ellenőrzése garantálja azt, hogy az FSC tanúsítással ne lehessen visszaélni.

Egy lépés a jövőért, mert csak erdeinkkel való megfelelő gazdálkodás garantálhatja az erdők megővését, azok fajta-gazdagságának megőrzését és így a mai és jövő generáció életminőségének biztosítását.
