

Safety Data Sheet for not dangerous mixtures according to 878/2020 EU Regulation

*Date of Compilation/Revision: 23.06.2020./23.04.2022.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifiers KE52 Fluid Gloss vetrificante ad acqua

1.2. Type of substance: CLP Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against
Glue paste

1.3. Details of the supplier of the safety data sheet

STAMPERIA INTERNATIONAL Kft

Váci u. 81. 4. em.

1056 Budapest

office: Városligeti fasor 47-49.

1071 Budapest

1.4. Emergency telephone number

https://echa.europa.eu/documents/10162/23019181/emergency_phone_numbers_en.pdf/d911af43-4bcf-9371-a59d-a20736d91e7d

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

This product is not classified according to (EC) Regulation No 1272/2008.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008

KE52 Fluid Gloss vetrificante ad acqua

This product is not classified according to (EC) Regulation No 1272/2008.

Additional labelling:

EUH208 Contains C(M)IT-MIT, BIT. May cause an allergic reaction.

2.3 Other hazards:

It does not contain PBT/vPvB materials,

*SECTION 3: Composition/information on ingredients

3.2. Mixtures

The details below includes all impurities and by-products that contribute to the product classification or that have an occupational exposure limits.

Hazardous Substance(s): 1,2-benzisothiazol-3(2H)-one (BIT) (Substance with a trigger limit)
concentration: < 0,05%

EC-No.: 220-120-9

CAS-No.: 2634-33-5

Index-No.: 613-088-00-6

Classification according to Regulation (EC) No 1272/2008 : Acute Tox. 4 oral H302, Acute Tox. inhal. 2 H330, Skin Irrit. 2 H315, Skin Sens. 1 H317, Eye Dam. 1 H318, Aquatic Acute 1 H400 (M=1), Aquatic Chronic 2 H411 (SCL: Skin Sens. 1 H317: c >= 0.05%)

Hazardous Substance(s): Zinc pyrithione

concentration: < 0,025%

EC-No.: 236-671-3

CAS-No.: 13463-41-7

Classification according to Regulation (EC) No 1272/2008 : Repr. 1B 360D, Acute Tox. inhal 2 H330, Acute Tox. oral 3 H301, STOT RE 1 H372, Eye Dam. 1 H318, Aquatic Acute 1 H400 (M=1000), Aquatic Chronic 1 H410 (M=10) (SCL: inhalation: ATE = 0,14 mg/L (powder or mist) oral: ATE = 221 mg/ttkg)

Registration number 01-2119511196-46-xxxx (as biocid is free)

Hazardous Substance(s): Reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) (C(M)IT-MIT) (Substance with a trigger limit)

concentration: < 0,001%

EC-No.: - (mixture)

CAS-No.: 55965-84-9

ECHA-No.: 611-341-5

Index-No.: 613-167-00-5

Classification according to Regulation (EC) No 1272/2008 : Acute Tox. oral 3 H301, Acute Tox. dermal 2 H310, Acute Tox. inhal. 2 H330, Skin Corr. 1C H314, Skin Sens. 1A H317, Eye Dam. 1 H318, Aquatic Acute 1 H400 (M=100), Aquatic Chronic 1 H410 (M=100), EUH071 (SCL: Skin Corr. 1C H314: $c \geq 0,6 \%$, Skin Irrit. 2 H315: $0,06 \% \leq c < 0,6 \%$, Eye Dam. 1; H318: $C \geq 0,6 \%$ Eye Irrit. 2 H319: $0,06 \% \leq c < 0,6 \%$, Skin Sens. 1 H317: $c \geq 0,0015 \%$), Note B

Note B: Certain substances (acids, alkalis, etc.) are in the form of aqueous solutions of different concentrations and should therefore be labeled differently as the degree of danger varies depending on the concentration. The items supplemented with Note B has a general description : ... % nitric acid. In this case, the supplier of the substance must indicate the concentration of the solution on the label. Unless otherwise stated, it is to be assumed that the percentage concentration is expressed as a percentage by weight.

Refer to Section 16 for full details of hazard statements and Notas.

SECTION 4: First aid measures

4.1. Description of necessary first-aid measures

General:

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

Inhalation:

Keep patient calm, remove to fresh air, if necessary, seek medical attention.

Eye contact:

Wash affected eyes for at least 15 minutes under running water with eyelids held open. Consult a doctor in case of persistent symptoms or complaints.

Skin contact:

Wash thoroughly with soap and water.

Ingestion:

Rinse mouth. When symptoms persist, seek medical attention.

4.2. Most important symptoms and effects, both acute and delayed

From symptoms and effects we donot have any information.

4.3. Indication of immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Use extinguishing media that is suitable for the extinguishing of burning agents in the environment.

Not to be used : Not known.

5.2. Special hazards arising from the substance or mixture

The product is not flammable. In case of fire hazardous vapors, gases may be formed.

5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective clothing.

Use fine water spray to cool endangered containers. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Remove the unauthorized persons. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Remove all sources of ignition. Provide adequate ventilation.

6.2. Environmental precautions

Do not allow to enter drains or watercourses.

6.3. Methods and materials for containment and cleaning up

Small spills: Soak up with cloth. For residues: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Stop the spillage if safe to do. Remove the ignition sources. Dispose of absorbed material in accordance with regulations. Wash the contaminated area with plenty of water.

6.4. Reference to other sections

Use personal protective equipment recommended in section 8.

For disposal see section 13.

SECTION 7: Handling and storage**7.1. Precautions for safe handling**

No special measures are required.

Avoid contact with skin and eyes. Do not breathe vapours. Provide adequate ventilation.

Do not eat, drink or smoke while working. Wash hands before breaks and at the end of workday.

Do not use the product near sources of ignition.

7.2. Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a cool, well-ventilated place. Keep away from sources of ignition and from incompatible materials.

7.3. Specific end uses

See section 1.2

SECTION 8: Exposure controls/personal protection**8.1. Control parameters****Components with workplace control parameters**

Contains no substances with occupational exposure limit values

8.2. Exposure controls**Appropriate engineering controls**

Handle in accordance with good industrial hygiene and safety practice. Local or general extraction system is recommended in order to keep the exposure as low as possible. Safety shower, eyewash is recommended.

If local risk assessment requires, weigh the concentration of the components in the air.

Personal protective equipment**Eyeface protection**

Safety glasses with side-shields according to EN 166.

Skin protection

Protective gloves according to EN 374. can be used, but in normal case it is not necessary.

Observe glove manufacturer's instructions concerning penetrability and breakthrough time.

If local risk assessment requires, use protective equipment. (Chemical resistant gloves, overall or work clothes)

Body Protection

Protective clothing according to EN ISO 20345

Respiratory protection

Provide good ventilation of working area. Wear respiratory protection if ventilation is inadequate.

Dust mask and organic substances provided for combined respiratory protective, if necessary.

Environmental exposure controls

Check emissions of the local exhaust system during the production in order to comply with environmental protection requirements

SECTION 9: Physical and chemical properties*9.1. Information on basic physical and chemical properties**

(a) Physical state viscous liquid, paste

- (b) Colour product-specific
- (c) Odour characteristic
- (d) Melting point/freezing point not determined
- (e) Boiling point or initial boiling point and boiling range not determined
- (f) Flammability non-flammable liquid
- (g) Lower and upper explosion limit Not applicable (non-flammable / non-explosive liquid).
- (h) Flash point not determined (> 61 °C)
- (i) Auto-ignition temperature not determined
- (j) Decomposition temperature not determined
- (k) pH not determined
- (l) Kinematic viscosity not determined
- (m) Solubility soluble in water
- (n) Partition coefficient n-octanol/water (log value) not determined
- (o) Vapour pressure not determined
- (p) Density and/or relative density 1,0-1,2 g/cm³
- (q) Relative vapour density not determined
- (r) Particle characteristics Not applicable for fluid. It does not contain nanoparticles.

9.2. Other information

No data available

SECTION 10: Stability and reactivity**10.1. Reactivity**

No hazardous reactions can be expected under normal handling and storage

10.2. Chemical stability

Stable under recommended storage and handling conditions.

10.3. Possibility of hazardous reactions

No dangerous reaction in normal use.

10.4. Conditions to avoid

Heat, flames and sparks.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

Hazardous vapors, gases

SECTION 11: Toxicological information*11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

There are no data available on the preparation itself.

(a) acute toxicity: Based on available data, the classification criteria are not met

The product does not contain components of acute toxicity-classified at or above the general classification limits.

(b) skin corrosion/irritation: Based on available data, the classification criteria are not met

The product does not contain components of skin corrosion or skin irritation at or above the general classification limits

(c) serious eye damage/irritation: Based on available data, the classification criteria are not met

The product does not contain components which damage or irritate to eyes at or above the general classification limits.

(d) respiratory or skin sensitisation: Based on available data, the classification criteria are not met

The product contains components classified as skin sensitization at concentrations above the triggering limit as indicated by the EUH208 phrases on the label.

(e) germ cell mutagenicity: Based on available data, the classification criteria are not met

The product does not contain mutagenic components

(f) carcinogenicity: Based on available data, the classification criteria are not met

The product does not contain carcinogenic components.

(g) reproductive toxicity: Based on available data, the classification criteria are not met

(h) STOT-single exposure: Based on available data, the classification criteria are not met

The product does not contain a single exposure specific target organ toxicity-classified components in the general classification limit values or concentration above.

(i) STOT-repeated exposure: Based on available data, the classification criteria are not met

(j) aspiration hazard: Based on available data, the classification criteria are not met
The product does not contain components classified with aspiration toxicity.

11.2. Information on other hazards

No further information available.

*SECTION 12: Ecological information

12.1. Toxicity

There are no data available on the preparation itself.

Based on available data, the classification criteria are not met (not classified as dangerous for the environment.)

Zinc pyrrithione

LC ₅₀ (Brachydanio rerio, 96 h):	0,0104 mg/l (OECD 203)
EC ₅₀ (Daphnia magna, 48 h):	0,051 mg/l (OECD 202)
EC ₅₀ (Pseudokirchneriella subcapitata, 72 h):	0,051 mg/l (OECD 201)
EC ₅₀ (Skeletonema costatum):	0,0013 mg/l (ISO 10253, literature data)
EC ₅₀ (activated sludge, 3 h):	2,8 mg/l (OECD 209)
EC ₂₀ (activated sludge, 3 h):	1,34 mg/l (OECD 209)
NOEC (Brachydanio rerio, 28 nap):	0,00125 mg/l (OECD 215)
NOEC (Daphnia magna, 21 nap):	0,0022 mg/l (OECD 211)
NOEC (Pseudokirchneriella subcapitata, 72 h):	0,0149 mg/l (OECD 201)
NOEC (Skeletonema costatum, 96 h):	0,00046 mg/l (OECD 201, literature data)

12.2. Persistence and degradability

Biodegradability

No relevant information available.

Components:

1,2-benzizotiazolin-3-on: Readily biodegradable.

ca. 90 % (OECD 302B Zahn-Wellens test, activated sludge)

> 70 % (OECD 303A DOC, activated sludge)

t_{1/2}: 1,28-2,1 d (OECD 308 in freshwater sediment)

t_{1/2}: 4,1 nap (OECD 309 biodegradable simulation in surface water)

Zinc pyrrithione: Readily biodegradable

t_{1/2}: 0,5 d (OECD 308 biodegradable simulation in sediment (freshwater))

12.3. Bioaccumulative potential

Components:

1,2-benzizotiazolin-3-on: Bioaccumulation is not expected.

Partition coefficient: n-octanol/water: log K_{o/v} = 0,7 (OECD 117, HPLC method)

Bioconcentration factor, BCF (fish): 6,95 (OECD 305)

Zinc pyrrithione: Bioaccumulation is not expected

log K_{o/v}: 1,21 (OECD 107, shaking method)

12.4. Mobility in soil

The product is water-soluble

12.5. Results of PBT and vPvB assessment

The product does not fulfill the criteria for PBT(Persistent/bioaccumulative/toxic) and vPvB (very persistent/very bioaccumulative).

12.6. Endocrine disrupting properties

No relevant information available.

12.7. Other adverse effects

Not known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Do not dispose of together with household waste. In accordance with local and national regulations.

Non-hazardous waste, but the generation of waste should be avoided or minimized wherever possible. Do not allow into drains or water courses. The waste packaging can be recycled.

*SECTION 14: Transport information

- 14.1. UN number or ID number Not applicable
14.2. UN proper shipping name Not applicable
14.3. Transport hazard class(es) Not applicable
14.4. Packing group Not applicable
14.5. Environmental hazards No
14.6. Special precautions for user Observe the applicable safety data sheet.
14.7. Maritime transport in bulk according to IMO instruments Not applicable to the product being shipped

SECTION 15: Regulatory information

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

According to the local regulation. For product there are no special requirements.

The components of this product are included in the following notification lists; are exempted, or otherwise meet requirements: EINECS/ELINCS/NLP (EU), DSL/NDL (Kanada), KECI (Dél-Korea), TSCA (USA).

The ingredients of this product are not included on California's 65 list

List of substances subject to authorization (Annex XIV.): The ingredients are not listed

15.2. Chemical safety assessment

Chemical safety assessment has not been carried out./ not required.

*SECTION 16: Other information

LIST OF RELEVANT H-PHRASES IN SECTION 3

H-Phrases

- H301 Toxic if swallowed.
H302 Harmful if swallowed
H310 Fatal in contact with skin
H314 Causes severe skin burns and eye damage
H315 Causes skin irritation
H317 May cause an allergic skin reaction
H318 Causes serious eye damage
H319 Causes serious eye irritation
H330 Fatal if inhaled
H360D May damage fertility or the unborn child
H372 Causes damage to organs *<or state all organs affected, if known>* through prolonged or repeated exposure *<state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>*.
H400 Very toxic to aquatic life
H410 Very toxic to aquatic life with long lasting effects
H411 Toxic to aquatic life with long lasting effects
EUH071 EUH071 Corrosive to the respiratory tract.
EUH208 Contains (name of sensitising substance). May produce an allergic reaction.

This product Safety Data Sheet provides health, safety, and regulatory information. The information contained in this Safety Data Sheet is based on data available to us at the date of issue , and is provided in good faith, and believed to be accurate and reliable at the date of issue, however, no warranty, express or implied is provided. The product is to be used in applications consistent. For any other uses, exposures should be evaluated so that the appropriate handling practices and training programs can be established to ensure safe working conditions and operations. It is the buyer's/user's responsibility to satisfy itself that the product is suitable for the intended use, and to ensure that its activities comply with all federal, state, provincial, or local laws and regulations. Regulatory requirements are subject to change and may differ between European Member States and Nations. Individuals handling this product should be informed of the recommended safety precautions and should have access to this information.
