D **Deutsch:**

Bitte beachten Sie beim Aufbau unbedingt die Montageanleitung für Ihre Möbel. Der Aufbau nach Montageanleitung durch autorisiertes Fachpersonal ist zwingende Garantiebedingung. Bei Folgeschäden, verursacht durch eventuelle Selbstmontage oder Nichtbeachtung wichtiger Produktinformationen, wird keine Haftung übernommen.

Nur durch eine genaue vertikale und horizontale Ausrichtung des Schrankkörpers ist eine optimale Funktion der Türen, Schubkästen und Sonderausstattungen gewährleistet. Nach dem genauen Ausrichten ist eine Wandmontage aus Sicherheitsgründen, aber auch aus Funktions- und Stabilitätsgründen unbedingt notwendig.

Das mitgelieferte Wandbefestigungsmaterial (Dübel, Schrauben) ist ausschließlich für die Befestigung an Beton und/oder festem Mauerwerk geeignet. Bei abweichender Beschaffenheit (z.B. Gipskarton- oder Leichtbauwände) ist eine andere vom Fachpersonal bauseits vorzunehmende Befestigung auszuwählen.

Die Demontage Ihrer Möbel erfolgt in umgekehrter Reihenfolge wie die Montage.

GB **Englisch:**

Always follow the instructions for assembly when setting up your furniture. Assembly by authorised trained personnel in accordance with the instructions for assembly is mandatory for recognition of the warranty. The manufacturer assumes no liability in the case of damage resulting from possible self-assembly or failure to observe important product information.

Only the exactly vertical and horizontal alignment of the cabinet body ensures the optimal functioning of the doors, drawers and special equipment. After exactly aligning, a wall mounting is absolutely necessary both for reasons of safety and to ensure stability.

The wall mounting material supplied (dowels, screws) is suitable only for attachment to concrete and/or permanent walling. For other structures (e.g. gypsum plaster board or lightweight walls) it is the responsibility of the customer to choose another method of attachment, to be implemented by trained personnel.

The disassembly is performed in reverse order to the assembly.

F **Französisch:**

Respecter obligatoirement les instructions de montage lors de l'assemblage de vos meubles. L'assemblage conformément aux instructions de montage par du personnel compétent autorisé est obligatoire pour d'éventuels droits à la garantie. Nous déclinons toute responsabilité, en cas de dégâts consécutifs suite à un montage éventuellement effectué par le client lui-même ou au non-respect d'importantes informations produit.

Un fonctionnement optimal des portes, tiroirs et des accessoires spéciaux est uniquement garanti si le corps de l'armoire est aligné de manière précise à la verticale et à l'horizontale. Après avoir procédé à l'alignement précis, un montage mural est obligatoirement nécessaire, non seulement pour des raisons de sécurité, mais également pour des raisons de fonctionnalité et de stabilité.

Le matériel de fixation murale fourni avec les meubles (chevilles, vis) est exclusivement destiné à la fixation dans du béton et/ou de la maçonnerie solide. Si les propriétés des supports de fixation sont différentes (par exemple murs en plaques de plâtre cartonné ou murs de construction légère), le personnel compétent doit choisir une autre fixation adéquate sur les lieux.

Le démontage de vos meubles s'effectuera dans l'ordre inverse du montage.

NL **Niederländisch:**

Neem bij het ineenzetten van de meubels de montagehandleiding in acht. De opbouw volgens de montagehandleiding door deskundig personeel is een dwingende garantievoorwaarde. Bij gevolgschade die werd veroorzaakt door eventuele zelfmontage of het niet in acht nemen van belangrijke productinformatie, vervalt de garantie.

Alleen door een nauwkeurige verticale en horizontale opstelling van het kastlichaam is een optimale werking van de deuren, laden en speciale inrichtingen gewaarborgd. Na de nauwkeurige opstelling is omwille van de veiligheid maar ook voor de functionaliteit en stabiliteit een wandmontage absoluut noodzakelijk.

Het meegeleverde wandbevestigingsmateriaal (pluggen, schroeven) is uitsluitend geschikt voor bevestiging aan beton en/of vast metselwerk. Bij een andere wandconstructie (bv. gipskarton of lichte wanden) moet een andere bevestiging worden gekozen die door het vakpersoneel ter plaatse wordt uitgevoerd.

Het demonteren van uw meubelen gaat in omgekeerde volgorde van montage.

SLO **Slowenisch:**

Prosimo, da pri postavljanju brezpogojno upoštevate navodila za montažo Vašega pohištva. Obvezni pogoj za veljavno garancijo je, da mora postavitev pohištva izvršiti strokovno usposobljeno oseboje v skladu z navodili za montažo. V primeru škode, ki bi nastala zaradi morebitne lastne montaže ali neupoštevanja informacij o proizvodu, ne prevzemamo odgovornosti.

Samo z natančnim navpičnim in vodoravnim naravnanjem telesa omaro bo zagotovljeno optimalno delovanje vrat, predalov in dodatne opreme. Po natančnem naravnanju je stenska montaža neobhodno potrebna iz varnostnih razlogov kot tudi iz funkcionalnih razlogov in zaradi stabilnosti.

S pohištvo dobavljeno material za stensko pritrditev (stenski vložki, vijaki) je primeren izključno samo za pritrditev na beton in/ali na trde zidne površine. V primeru odstopajočih lastnosti (npr. stene iz mavčnih plošč ali tankih gradbenih plošč) mora strokovnjak na licu mesta izbrati ustrezn način pritrditve.

Demontaža pohištva poteka v obratnem vrstnem redu montaže.

HR **Kroatisch:**

Molimo da se prilikom montaže obavezno pridržavate uputa za montažu namještaja. Montaža prema uputama od strane ovlaštenog stručnog osoblja obvezatan je preduvjet garancije. Ne preuzimamo odgovornost u slučaju posljednjih šteta uzrokovanih eventualnom samostalnom montažom ili nepridržavanjem važnih informacija o proizvodu.

Optimalna funkcionalnost vrata, ladica i posebne opreme zajamčena je samo u slučaju preciznog okomitog i vodoravnog poravnavanja tijela ormara. Nakon preciznog poravnavanja, od bezuvjetne je važnosti zidna montaža, kako bi se osigurala sigurnost, ali i funkcionalnost i stabilnost.

Isporučeni materijal za pričvršćivanje na zid (učvršnice, vijci) služi isključivo za učvršćivanje na beton i/ili zid od cigle. Kod drugačijih svojstava zida (npr. zidovi od gipsanih ploča ili drugi lagani zidovi), stručno osoblje na licu mjesta treba odabrati neki drugi način pričvršćivanja.

Demontaža namještaja vrši se obrnutim redoslijedom od montaže.

CZ **Tschechisch:**

Při montáži prosím bezpodmínečně dodržujte montážní návod pro Váš nábytek. Montáž dle montážního návodu autorizovaným odborným personálem je povinnou podmínkou pro poskytnutí záruky. Za následné škody, způsobené eventuální vlastní montáží nebo nedodržením důležitých informací o výrobku, se nepřebírá ručení.

Optimální funkce dveří, zásuvek a speciálního vybavení je zaručena pouze přesným vertikálním a horizontálním vyrovnaním korpusu skříně. Po přesném vyrovnaní je z bezpečnostních důvodů, ale také z důvodů funkce a stability, bezpodmínečně nutná montáž na zeď.

Dodaný upevňovací materiál pro upevnění na zeď (hmoždinky, šrouby) je vhodný výhradně pro upevnění do betonu a/nebo do pevného zdiva. Při odlišných vlastnostech (např. zdi ze sádrokartonových desek nebo zdi z lehkých stavebních materiálů) musí být odborným personálem zvolen jiný vhodný druh upevnění, odpovídající místním podmínkám.

Demontáž nábytku se provádí v opačném pořadí než montáž.

HU **Ungarisch:**

A felépítéskor kérjük, feltétlenül vegye figyelembe a bútor szerelési útmutatóját. A feljogosított szakszemélyzet által a szerelési útmutató szerint végrehajtott felállítás kényszerítő garanciális feltétel. Az esetleges saját összeszerelés vagy a fontos termékinformációk figyelmen kívül hagyása okozta járulékos károkért mi nem vállalunk felelősséget.

A szekrénytessék csak a pontos vízszintes és függőleges beigazítása biztosítja az ajtók, fiókok és különleges felszerelések optimális működését. A pontos beigazítás után biztonsági, de funkcionális és stabilitási okokból is feltétlenül szükséges a fal szerelés.

A szállításhoz mellékelte fal rögzítésszközök (típlik, csavarok) kizárólag betonban vagy szilárd falazatba rögzítéshez alkalmasak. Más minőségű (pl. gipszkarton vagy könnyűszerkezetű) fal esetén ettől eltérő, szakember által végrehajtandó, bevő oldali rögzítést kell választani.

A bútorok szétszerelése az összeszerelés fordított sorrendjében történik.

RO **Rumänisch:**

Vă rugăm să respectați neapărat instrucțiunile de montaj ale mobilierului dumneavoastră. Montajul efectuat conform acestor instrucțiuni de către un personal specializat și autorizat constituie o condiție obligatorie pentru acordarea garanției. Nu ne asumăm nici o răspundere pentru eventualele pagube produse ca urmare a montării de unul singur a obiectelor de mobilier sau a nerespectării unor informații importante privind produsele achiziționate.

Funcționarea optimă a ușilor, sertarelor și dotărilor speciale este posibilă doar printr-o aliniere perfect orizontală și verticală a dulapurii. După alinierea corectă a dulapurii se impune fixarea acesteia de perete, atât din motive de siguranță, cât și din considerente de funcționalitate și stabilitate.

Materialele livrate pentru fixarea de perete (dubluri, șuruburi) sunt indicate exclusiv pentru fixarea de pereți din beton și/sau solizi. În cazul unui alt tip de consistență (pereți din gips sau de construcție ușoară) trebuie ales un alt fel de prindere de către personalul de specialitate angajat de către client.

Demontarea mobilierului se efectuează în ordinea inversă a asamblării.

SK **Slovakisch:**

Prosím, dodržujte pri montáži bezpodmínečne návod na montáž určený pre Váš nábytok. Montáž podľa návodu na montáž autorizovaným odborným personálom je nevyhnutnou podmienkou pre poskytnutie záruky. V prípade následných škôd, ktoré by boli spôsobené prípadnou svojpomocnou montážou alebo nedodržením dôležitých informácií o výrobku, nebudeme preberané žiadne ručenie.

Len na základe presného vertikálneho a horizontálneho nastavenia korpusu skrine je zaručená optimálna funkcia dverí, zásuviek a zvláštného vybavenia. Po presnom nastavení je potrebná montáž na stenu z bezpečnostných dôvodov, ale taktiež z dôvodov funkčnosti a stability.

Dodaný upevňovací materiál pre upevnenie na stenu (hmoždinky, skrutky) je určený výlučne len pre upevňovanie do betónu a/alebo pevného múru. V prípade iného typu stavebného materiálu (napr. sádrokartónové steny alebo ľahké múry) sa musí na strane stavby zvoliť iná metóda pre upevnenie odborným personálom vykonávajúcim montáž. Demontáž nábytku sa vykonáva v opačnom poradí ako montáž.

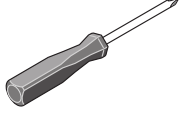

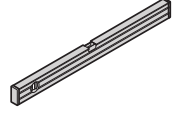

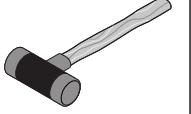

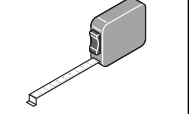

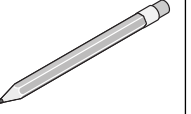

SR **Serbisch:**

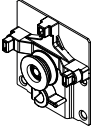

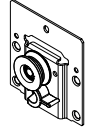

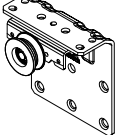

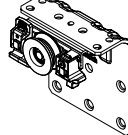

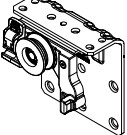

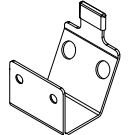

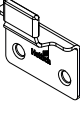

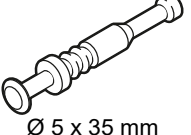

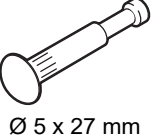

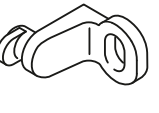

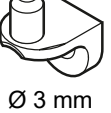

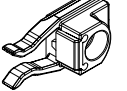

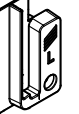

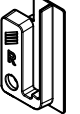

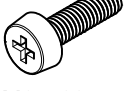

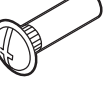

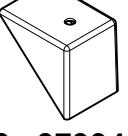

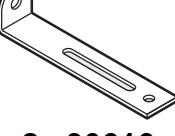

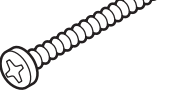

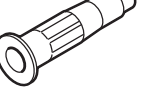

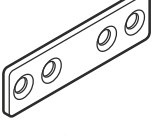

Molimo Vas da prilikom montaže obavezno poštuje uputstva za montažu namještaja. Obavezan preduslov garancije je da montažu obavio ovlašćen, stručan personal u skladu sa uputstvima. Ne preuzimamo odgovornost u slučaju poslednjih šteta uzrokovanih eventualnom samostalnom montažom ili nepoštovanjem važnih informacija o proizvodu.

Optimalna funkcija vrata, ladica i posebne opreme zagarantovana je samo u slučaju preciznog vertikalnog i horizontalnog izravnavanja tela ormara. Nakon preciznog izravnavanja važno je da se, iz bezbednosnih razloga, ali iz razloga funkcionalnosti i stabilnosti, obavezno izvrši zidna montaža.

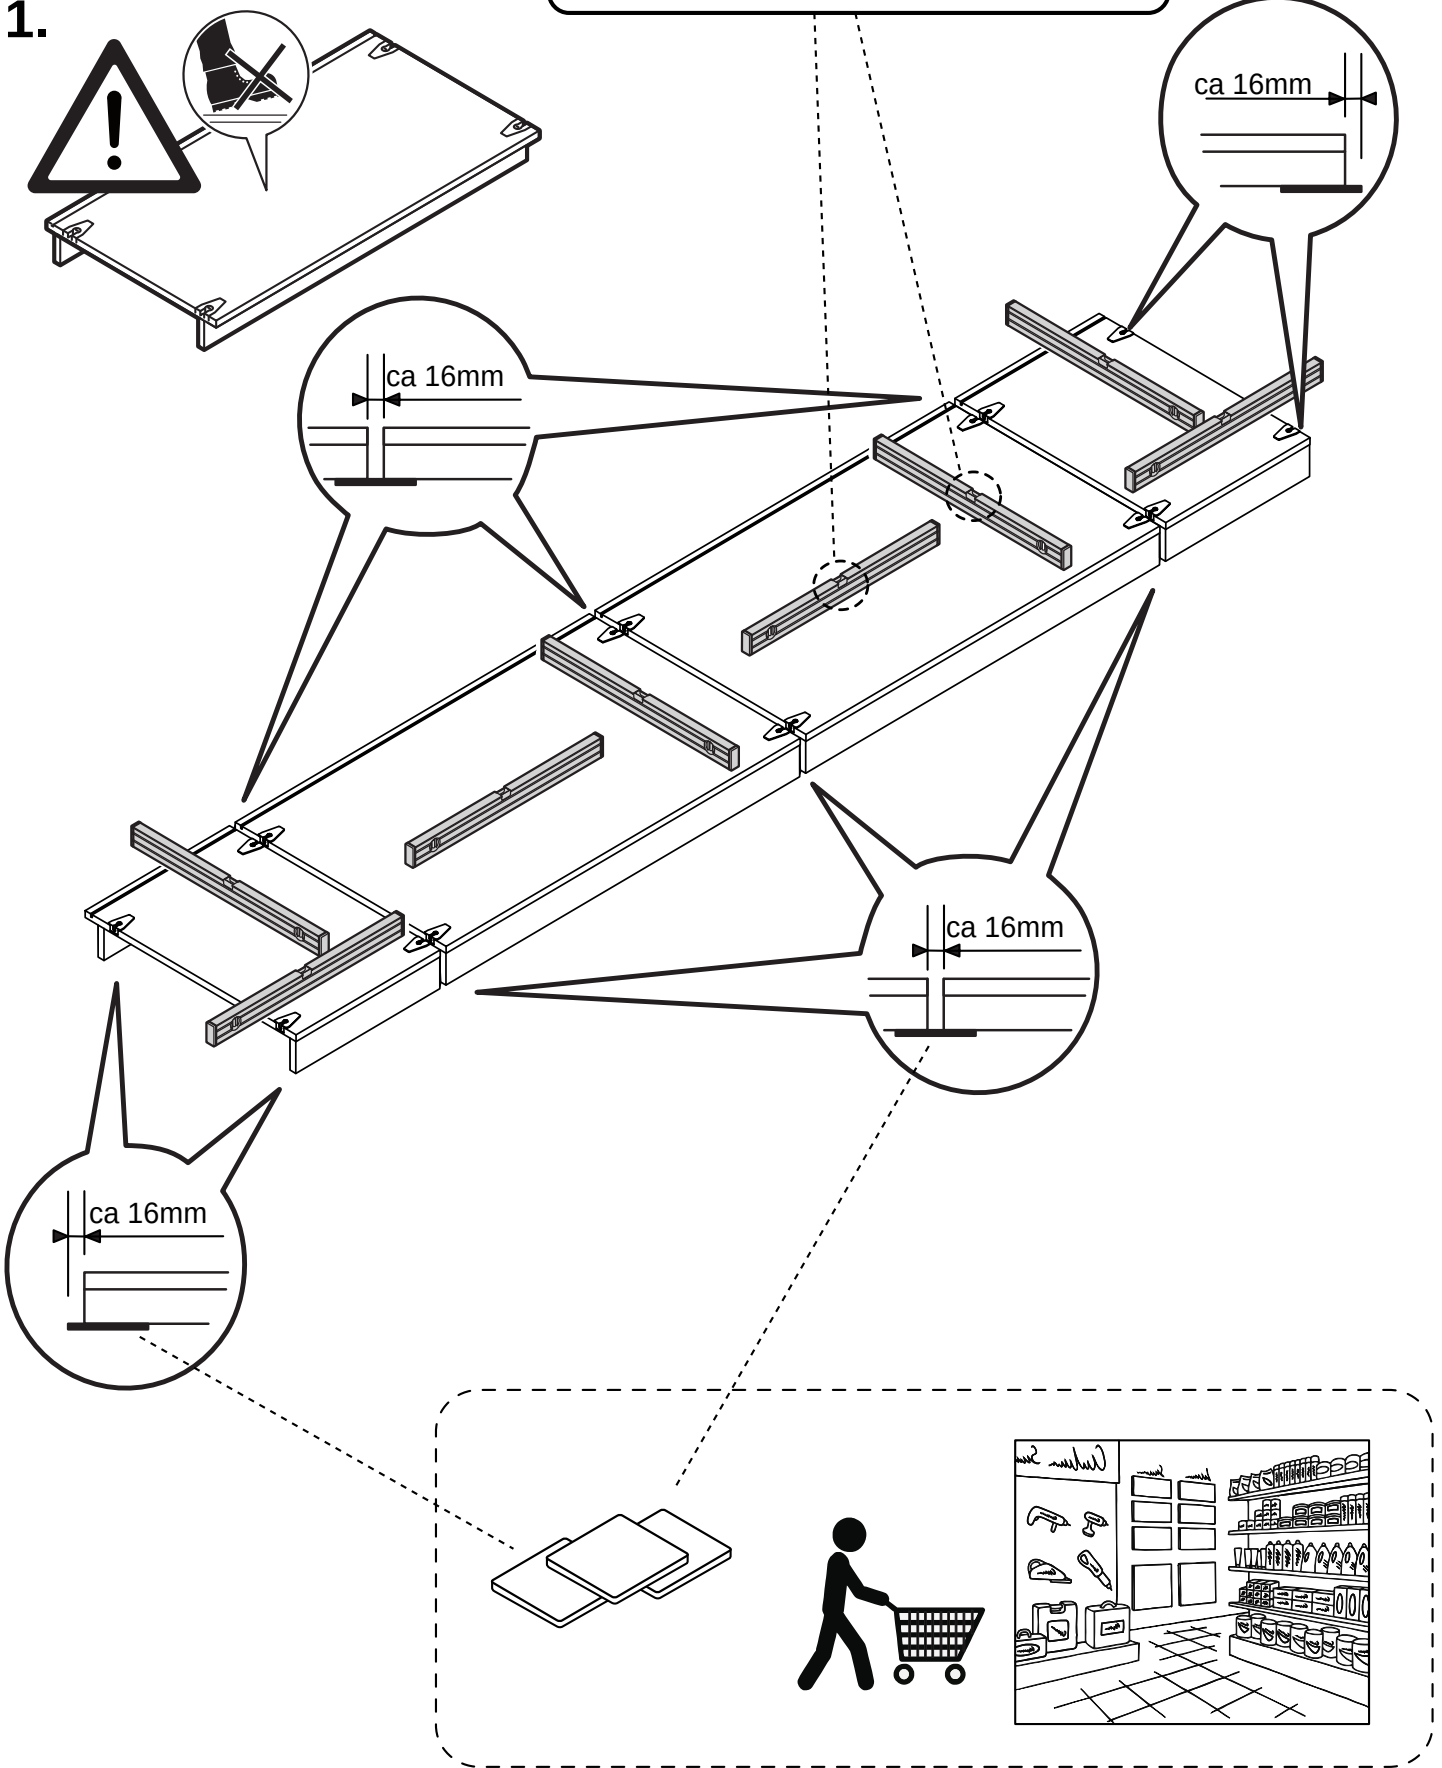

Isporučen materijal za učvršćivanje na zid (típi, zavrtnji) služi isključivo za učvršćivanje na beton i/ili zid od cigle. Kod drugačijih svojstava (npr. zidovi od gipsanih ploča ili drugi lagani zidovi) stručan personal treba da na licu mesta izabere neki drugi način učvršćivanja. Demontaža namještaja se vrši obrnutim redoslijedom od montaže.
