Storage Bench/Sitzbank mit Stauraum

DE: Lesen Sie die Anleitung vor dem Zusammenbau bitte vollständig durch. Überprüfen Sie, ob Sie alle auf den Seiten aufgeführten Komponenten und Werkzeuge haben. Wir empfehlen, für die Montage Handwerkzeuge zu verwenden. Wenn Sie einen elektrischen Schraubenzieher verwenden, reduzieren Sie die Leistung und das Drehmoment, um Schäden am Produkt zu vermeiden. Vor dem Einbau die Schrauben in die Löcher stecken und festziehen, aber nicht bis 100%, 70% bis 80% anziehen reicht aus. Schließlich, nachdem alle Schrauben installiert sind, ziehen Sie alle Schrauben auf 100%. Wenn Sie auf diese Probleme stoßen, wie z. B. Fehlausrichtung der Löcher oder Unfähigkeit, bestimmte Teile zu installieren, überprüfen Sie bitte, ob die Schrauben korrekt verwendet werden und passen Sie die Dichtigkeit der Schrauben an.

UK: Please read instructions fully before starting assembly. Check you have all the components and tools listed on pages. If an electric screwdriver is used, reduce power and torque to avoid damage to the product. Before installation, insert the screws into the holes and tighten them, but do not tighten them to 100%, 70% to 80% is sufficient. Finally, after all screws are installed, tighten all screws to 100%. If you encounter these issues, such as if the holes cannot be aligned or some parts cannot be installed, please check if the screws are used correctly and adjust the tightness of the screws.

- FR:** Veuillez lire entièrement les instructions avant de commencer l'assemblage. Vérifiez que vous disposez de tous les composants et outils répertoriés sur les pages. Si vous utilisez un tournevis électrique, réduisez la puissance et le couple de serrage pour éviter d'endommager le produit. Insérer la vis dans le trou avant la fin de l'assemblage, serrer la vis, mais ne pas serrer à 100%, 70% ~ 80% est correct. Enfin, une fois que toutes les vis sont bien serrées, toutes les vis sont serrées à 100%. Si vous rencontrez ces problèmes, par exemple si les trous ne sont pas alignés ou si certaines pièces ne peuvent pas être montées, vérifiez que les vis sont utilisées correctement et Ajustez leur serrage.
- IT:** leggere attentamente le istruzioni prima di iniziare il montaggio. Verificare di avere tutti i componenti e gli strumenti elencati nelle pagine. Si consiglia di utilizzare attrezzi manuali per il montaggio. Se si utilizza un avvitatore elettrico, ridurre la potenza e la coppia di serraggio per evitare di danneggiare il prodotto. Prima dell'installazione, inserire le viti nei fori e stringerle, ma non al 100%, è sufficiente stringerle al 70%- 80%. Infine, dopo aver installato tutte le viti, stringere tutte le viti al 100%. Se riscontri problemi come disallineamenti dei fori o difficoltà nell'installare alcuni componenti, verifica che le viti siano utilizzate correttamente e regola la tensione delle viti.
- ES:** Lea las instrucciones completamente antes de comenzar el montaje. Compruebe que tiene todos los componentes y herramientas que se enumeran en las páginas. Recomendamos utilizar herramientas manuales para el montaje. Si utiliza un destornillador eléctrico, reduzca la potencia y el par de apriete para evitar dañar el producto. Antes de la instalación, coloque los tornillos en los agujeros y apriételos, pero no al 100%; apretar al 70%- 80% es suficiente. Finalmente, después de haber instalado todos los tornillos, apriete todos los tornillos al 100%. Si se encuentra con problemas como desalineación de los agujeros o dificultad para instalar ciertas piezas, verifique que los tornillos se estén utilizando correctamente y ajuste la tensión de los tornillos.
