HYPER®

Dual 4K HDMI 10-in-1 USB-C Hub

SKU: HDMIHBUGL SRP: £189.99 | €199.99

FEATURES

Extend Two 4K Displays
Give your M1 MacBook®, PC or Chromebook™ the ability to connect to 2 extended monitors with crystal clear 4K HDMI video

Easy Driverless Setup
In just a few seconds, connect the hub to your device via USB and you'll immediately see the HyperDisplay App icon on your desktop. Just double-click it, and you're ready to go

Enjoy 10 Essential Ports
Seamlessly transform your M1 into a powerhouse workspace with 4K 60 Hz and 4K 30 Hz HDMI video ports, a USB-C 100 W Power Delivery port, MicroSD / SD slots, two USB-A 5Gbps ports, a 3.5 mm audio combo jack for headphones, and more

Quickly Transfer Photo / Video Files
For any data, photo files, or video files you need to transfer, our UHS-I to MicroSD / SD slots give you the ability to upload or send them at a blazing-fast 104 MB/s

Quickly Charge Devices
Enjoy powering up your M1 MacBook® in a flash with up to 85 W of pass-through charging with our USB-C 100 W PD charging port

NOTE:

- DP Alt Mode requires the "USB-C" port on your computer to support this feature - DP Alt Mode.

- SMI's InstantView requires the USB-C port on the host computer to support USB data transfer

Meet the newest way we're extending M1 MacBook® connectivity. With the Dual 4K HDMI 10-in-1 USB-C Hub, you can extend to 2 displays at 4K video while getting access to 10 essential ports, including USB-C, HDMI, USB-A, and many more. Enjoy transferring photos in a flash, quick charging your device, and extending to 2 HDMI displays, all without having to download cumbersome drivers. And, it's fully compatible with MacBook Air® / Pro® (M1 & Intel® powered) devices, Windows® PC devices as well as Chromebook™ devices.
