*Swivel chair
for cosy offices
and home*

Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany”.

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and more than 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. A particular emphasis is placed on the health and well-being of the users.

Certification for se:flair

se:flair

Cosy in the office, chic at home

The office is more diverse than ever: Touchdown workstations, workshop areas, lounge areas, conference rooms and much more define the spaces available. Furthermore, concepts such as hybrid working and the home office have conquered the world of work. The desire for more cosiness at work is very important. se:flair makes it possible: The chair that unites cosiness, comfort and function.

wooden frame

FORM AND FUNCTION

Perfectly adapts – to the body and the environment

With se:flair, the office gets a swivel chair that bridges the gap between a classic office chair and a cosy shell chair. Compact, cosy and with that certain something, it is suitable for a wide variety of work settings. The high-quality knitted membrane in the back and the comfortable seat upholstery ensure the best comfort. The “Kinetic-Swing” mechanism, the opening angle as well as integrated lumbar support complete this feel-good chair.

Opening angle 21°

High-quality knitted membrane
breathable and air-permeable,
supportive and ergonomic

**Comfortable

mechanism**

Seat adjustment

- rotates 360°
- lockable
- height-adjustable (5-star, 4-star)

Base
available in three versions

se:flair unites the ergonomic aspects of a swivel chair with the comfortable look of a shell chair

With se:flair, the office feels like home due to its fabric surfaces and cosy appearance

5-star plastic base with castors

4-star aluminium base with glides

FORM AND FUNCTION

Simply inviting

Not all work is the same. Requirements, needs and wishes determine the working style and place. No problem for se:flair: It cuts a fine figure at the office, in the conference room and in the home office alike. With its comfortable appearance, it also creates a cosy atmosphere and feel-good moments.

Design meets function

Looks the part and boasts numerous functions: se:flair offers an exceptionally comfortable sitting experience.

1. The knitted membrane for the back perfectly adapts to individual movements and sitting positions. It is also breathable and air-permeable, thus preventing heat accumulation on the back and at pressure points
2. The backrest and seat upholstery are also available as a bouclé membrane in five colours. Bouclé is a particularly tactile and stylish material with a characteristic, textured surface that conveys depth and character.
3. The armrests are integrated in the rest frame under the knitted membrane. This creates the overall look of the cosy shell chair
4. For a monochrome appearance, the seat upholstery can be chosen in the same colour as the backrest with a membrane cover. The backrest and seat upholstery can also be configured in different colours to create a two-tone look
5. The easy-to-use lever for height adjustment is located on the side under the seat
6. The wooden frame is connected to the seat shell with an aluminium knot. The colour corresponds to the model colour
7. For chairs with the 5-star plastic base, the frame colour (black or clear white) determines the colour of the castors

Monochrome or mixed?

Whether with a monochrome, subtle appearance or as a colourful accent at the workplace, se:flair can be configured to suit any environment thanks to various frame and colour variants. This allows for easy creation of individual styles and modern cosiness.

For a harmonious overall appearance

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – se:flair can easily be adapted to any of these colour schemes.

The colour scheme corresponds to Sedus Soft Being

Smart Balance

light, reduced, calm, structured, functional, technical

Urban Living

comfortable, respectable, elegant, urban, intense, timeless

Soft Being

gentle, calm, balanced, natural, inviting, regenerative

Multi Creation

motivating, inspiring, creative, dynamic, active, open, free
